Join Novartis as Head Process Quality and lead the charge in embedding a culture of quality across clinical development. In this strategic role, you ' ll partner with Business Process Owners to ensure compliance, drive continuous improvement, and shape quality initiatives that impact global development efforts.

If you're ready to influence change and elevate standards, we ' d love to hear from you.

About the Role

## Key Responsibilities:

- Champion a culture of quality across Development through strong partnerships and strategic influence
- Serve as the primary quality contact for Business Process Owners (BPOs)
- Lead regulatory gap assessments and ensure timely resolution of identified issues
- Guide BPOs and Quality System Owners in developing robust process change strategies
- Support audit readiness and contribute to comprehensive CAPA planning and execution
- Oversee implementation of audit and inspection CAPAs to drive continuous improvement
- Conduct regular reviews of quality and compliance topics within clinical processes
- Identify and mitigate risks while promoting opportunities for process enhancement
- Leverage data insights to drive excellence in clinical quality processes
- Contribute expert input to RDQ strategic initiatives and quality planning

## Essential Requirements

- Bachelor ' s or Master ' s degree in Life Sciences, Nursing, Pharmacy, or Business Administration
- Fluent English communication skills, both spoken and written
- Minimum 10 years of Quality Assurance experience in regulated clinical development environments, including GCP
- At least 5 years of experience designing and implementing quality or business processes
- Proven ability to apply data-driven insights to improve quality and operational processes
- Demonstrated success in developing and executing global Corrective and Preventive Action (CAPA) plans
- Strong understanding of global regulatory expectations and clinical product development science
