

## AD, Payer Insights

Job ID  
REQ-10047005

4月 02, 2025

USA

### 摘要

This position will be located at the East Hanover, NJ location and will not have the ability to be located remotely.

### About the Role

#### Job Purpose

The Insights and Decision Science (IDS) team is dedicated to enabling improved decision making at Novartis by leveraging data and advanced analytics capabilities to generate actionable insights that drive business growth. We collaborate closely with the US business, bringing insights and challenging ideas to empower smarter, data-driven decision-making. Reporting into the ED, Payer and Access Strategy Insights, the AD, Payer Insights plays a crucial role in delivering insights and analytics to support payer and pricing strategies that align with the NVS 'mission to enhance patient access to innovative therapies.

This role will be responsible for leveraging advanced analytics to drive informed decision-making and optimize payer strategies. By conducting comprehensive assessments and impact analyses, the AD identifies key opportunities to enhance access and address customer needs for specific payer accounts. This role involves collaborating with stakeholders to develop robust pricing strategies and assess the implications of emerging policies and regulations. Through scenario modeling and data-driven insights, the AD ensures that the organization remains agile and responsive to payer dynamics, ultimately enhancing product uptake and revenue performance.

### Key Responsibilities

- Spearhead analytics initiatives to shape and refine payer and pricing strategies, aligning with the mission to enhance patient access to innovative therapies
- Dive deep into priority accounts to extract key insights that drive market access strategies and inform decision-making
- Analyze the effects of patient support programs on financial performance, identifying opportunities to enhance patient assistance initiatives
- Engage with Market Access stakeholders to pinpoint and implement necessary support for effective payer and pricing strategies
- Harness advanced analytical tools and market research to discover opportunities that increase access and meet customer needs
- Conduct thorough rebate payment and payer data analysis to track performance and uncover optimization opportunities
- Provide insights on the impact of emerging policies and regulations on pricing models, helping to navigate and capitalize on changes
- Develop and analyze scenarios to guide strategic decisions, mitigate risks, and identify new opportunities for growth
- Conduct economic analyses to understand prescribing behavior trends and their implications on product uptake and revenue

### Essential Requirements

Novartis seeks individual with extensive experience in market access strategy and analytics within the pharmaceutical industry. This individual should have a proven track record of effectively collaborating with market access stakeholders to derive actionable insights. A strong analytical background is essential, with the ability to leverage advanced analytical tools and market research to identify opportunities for enhancing market access and understanding customer needs. The candidate should be skilled in analyzing the implications of emerging policies and regulations on pricing models and profitability.

Education: Bachelor's degree in related field is required; Master of Science and/or MBA preferred

- Minimum of 6 years of pharmaceutical or related healthcare business, with a deep

understanding of market access dynamics and access / pricing strategies

- 3+ years of domain expertise in these areas are highly desired: market access secondary data analytics, data science, primary market research, field analytics and insights, and patient service analytics, or other related strategic analytics and management consulting
- A bachelor ' s degree in Business Administration, Supply Chain Management, Data Analytics, or a related field; an MBA or advanced degree is preferred
- Strong Market Access business acumen with ability to understand and interpret information from multiple sources
- Results oriented with excellent communication and collaboration skills
- Comfortable working in ambiguity with the ability to challenge traditional thinking to solve problems
- Demonstrated abilities to influence without authority, lead teams and develop/foster relationships with senior leadership
- Proven teamwork, collaboration, and people management skills; ability to work in a dynamic, fast-paced, multifunctional environment

The pay range for this position at commencement of employment is expected to be between: \$152,600.00 and \$283,400.00/year; however, while salary ranges are effective from 1/1/25 through 12/31/25, fluctuations in the job market may necessitate adjustments to pay ranges during this period. Further, final pay determinations will depend on various factors, including, but not limited to geographical location, experience level, knowledge, skills, and abilities. The total compensation package for this position may also include other elements, including a sign-on bonus, restricted stock units, and discretionary awards in addition to a full range of medical, financial, and/or other benefits (including 401(k) eligibility and various paid time off benefits, such as vacation, sick time, and parental leave), dependent on the position offered. Details of participation in these benefit plans will be provided if an employee receives an offer of employment. If hired, employee will be in an "at-will position" and the Company reserves the right to modify base salary (as well as any other discretionary payment or compensation program) at any time, including for reasons related to individual performance, Company or individual department/team performance, and market factors.
