摘要

Position Purpose

The MSL is responsible for scientifically engaging, collaborating and aligning with a broad range of external stakeholders to co-create value, address identified patient needs and ultimately change the practice of medicine for better patient access and outcomes. They leverage the right evidence at the right time during their engagements, and identify insights and opportunities that impact and inform the Integrated Product Strategy (IPS), Integrated Evidence Generation Plans, launch excellence roadmap, Patient Journey and medical strategies. MSLs also contribute to innovative partnerships and implement relevant disease area strategies. They will act as a strategic scientific partner, and collaborate with other Field matrix colleagues (e.g. Value/Market Access, HEOR, clinical research colleagues) to ensure Novartis can support healthcare systems strengthening & improve patient access and outcomes.

About the Role

Mayor Accountabilities

- Be a strategic internal partner, gather and leverage insights for an impactful contribution to Patient Journey mapping, launch excellence roadmap, integrated evidence generation plans, integrated product strategy and subsequently the medical strategy.
- Utilize knowledge of assigned therapeutic area and Novartis compounds to serve as the Medical, Clinical and Scientific expert to field matrix colleagues.
- Identify data gaps, data generation opportunities (including RWE and implementation science, precision medicine), and key unmet needs and opportunities to help improve patient access and outcomes
- Ensure appropriate identification and mapping of external stakeholders, aligned to the medical strategy, and in collaboration with other Novartis colleagues. Able to create personalized, flexible engagement strategies and plans, leveraging multiple channels and tailored content to meet the changing needs of external stakeholders
- Communicate the right evidence to the right stakeholder at the right time, enabling stakeholders to make informed decisions
- Respond to unsolicited requests for information from stakeholders by sharing appropriate data regarding marketed and pipeline compounds in a timely, compliant, and stakeholder-focused manner.
- Manage administrative responsibilities in a timely manner (customer relationship management tool, compliance training and other modules, expense reporting, etc.) & promote and adhere to Ethics and Compliance Professional Practices Policy (current policies).

Perfil Requerido - Ideal Background

Education: Medical Doctor, Pharmacist, Masters, or other post-graduate degree in health/life sciences. Doctoral degree preferred (PharmD, PhD, MD)

Languages: Fluent oral and written English & Local Language.

Competency Profile

- Continuous learning (dynamic knowledge development)
- Colaboration and teamwork
- Strategic and analytical thinking
- Innovation / Flexibility

- Courage
- Integrity

Specific Professional Competences

- Experience in a medical function (2-3 years preferred) in at least one therapeutic area.
- Scientific knowledge related with the specific disease area.
- Working knowledge of the Healthcare System and research procedures as well as the regulations and guidelines relevant to the pharmaceutical industry.
- Knowledge regarding development and interpretation of clinical studies, real-world evidence, and health economics based on implementation science.
- Excellent communication, interpersonal, and influencing skills, with the ability to communicate effectively to a variety of audiences.
- Application of a curious mindset, employing active listening skills and asking open questions to gain insights and uncover current thinking.
- Capable to adapt, organize, prioritize, and work effectively and collaboratively on multifunctional teams in a dynamic field-based environment.
- Proven ability to successfully leverage new technology/digital/IT solutions for effective stakeholder mapping, development, management, and field medical insights gathering.
- Business mentality including innovative, solution-oriented, and critical thinking
