Hungary

摘要

#LI-Hybrid

Primary Location: Budapest, Hungary

Relocation Support: This role is based in Budapest, Hungary. Novartis is unable to offer relocation support: please only apply if accessible.

Are you ready to make a meaningful impact in clinical research? As a Junior Clinical Research Associate, you ' ll be the vital link between Novartis and clinical trial sites—ensuring data integrity, regulatory compliance, and smooth study execution. This role offers a unique opportunity to collaborate across boundaries, monitor patient data, and contribute to life-changing research outcomes. If you're passionate about precision, collaboration, and making a difference, we ' d love to hear from you.

About the Role

Key Responsibilities

- Conduct site selection visits to assess trial readiness and capabilities
- Perform initiation visits and train site personnel on trial protocols
- Monitor patient data and study documentation for accuracy and compliance
- Ensure adherence to research protocols and regulatory standards
- Collaborate with internal teams and external sites to meet trial milestones
- Report adverse events and special cases within 24 hours of receipt
- Support distribution of marketing samples where applicable
- Represent Novartis in project-specific engagements and communications

Essential Requirements

- Experience in clinical operations, project coordination, or trial site management
- Ability to represent the organization professionally in external interactions
- Strong collaboration skills across cross-functional and multicultural teams
- Familiarity with clinical trial monitoring and regulatory compliance
- Proficiency in reviewing clinical data and ensuring data integrity
- Knowledge of clinical trial systems and reporting tools
- Strong decision-making and problem-solving capabilities
- Fluency in English and Hungarian, both written and spoken

About Novartis Hungary:

Novartis is a leading pharmaceutical company renowned for its innovation. In Hungary, we pioneered the introduction of advanced cell and gene therapies. Our commitment to research and development spans a wide range of therapeutic areas, including oncology, chronic conditions, and rare diseases. We take pride in being a proactive partner, contributing to the advancement of healthcare solutions. As a global pharmaceutical leader headquartered in Switzerland, Novartis is among the largest pharmaceutical companies in Hungary. Our mission is to lead in delivering innovative medicines to patients across the country. We are dedicated to fostering a dynamic work environment that promotes personal development and professional growth.

Commitment To Diversity & Inclusion:

We are committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each

other. Combining to achieve breakthroughs that change patients ' lives. Ready to create a brighter future together? <https://www.novartis.com/about/strategy/people-and-culture>
