摘要

Location: Hyderabad

As a key player in our program, this role will be accountable for the design, build and deployment of MDG-C / BP and integrated digital solutions (e.g., S4 HANA ERP) in the area of Data Design and will be part of our LDC Finance team in DDIT Organization in Novartis

About the Role

Your responsibilities include but are not limited to:

- Own and drive Solution Design for Customer Master Data through addressing all business requirements and opportunities while following Novartis architectural standards, quality and information security principles
- Collaborate closely with the Business Leads, Global Process Owners (GPOs) and Enterprise

Process Leads (EPLs) to suggest standardized and simplified integrated solutions

- Champion the standardization and simplification of design, minimizing the custom solutions only for cases where Novartis makes a difference in the market serving customers/patients
- Prepare and run design workshops in the assigned “Products”, identify critical integration points and dependencies, propose solutions for key gaps, provide effort estimations while ensuring alignment with business and other teams
- Assure consistency and traceability between user requirements, functional specifications, Agile ways of working and adapting to DevSecOps, architectural roadmaps, regulatory/control requirements, and smooth transition of solutions to operations
- Deliver assigned project work as per agreed timeline within budget and on-quality adhering to following the release calendars

Minimum requirements

- Bachelor ' s degree in business/technical domains. >10 years of relevant professional IT experience in the related functional area
- Thorough knowledge in MDG-C (Customer & BP) with hands-on experience in setting up of customer master and MDG Business Partner
- Experience in SAP MDG-C , SAP SD and eco-system applications in Pharma and/or Food & Beverage industry. Experienced in Customization Synchronization preferable and with Interfaces to non-SAP applications like CRM, MDM.
- SAP certifications / trainings in specified module(s)/process areas Preferable
- Consistent record of broad industry experience and solid understanding of complex enterprise IT landscapes and relationships. Experience in Agile project delivery and general management in an international environment
- Excellent knowledge of business processes, experience in regulated system environment and ability to “speak the business language” when talking about IT subjects
- Experience in advising peers and senior customers on complex issues and provide complex, contextual guidance to influence actions of internal and/or external partners. Experience in managing internal and external experts in different locations and time zones
