摘要

Location: Hyderabad

As an integral member of the Development Factory, this role will be responsible for designing, developing, and implementing solutions utilizing FIORI, UI5, and cloud technologies within the ERP domain. You will collaborate with design experts, technology architects, vendors, project management teams, third-party users, and business stakeholders to deliver impactful results in the ERP space. Additionally, you will be a key contributor to our DDIT APD team.

About the Role

Specialist (SAP BTP/ABAP/FIORI) DDIT APD ERP Dev Factory

Responsibilities:

- Design, develop, and implement solutions while working on SAP BTP and ABAP, leveraging services provided by Dev Factory in projects and enhancement areas.
- Collaborate with cross-functional teams to define requirements and create technical specifications for new applications and enhancements, with a primary focus on integrating and leveraging SAP BTP services.
- Build and deploy SAP FIORI apps using SAP UI5, JavaScript, HTML5, and CSS.
- Participate in project/enhancements quality management tasks, such as peer and quality reviews of specifications, design documents, and code reviews.
- Troubleshoot and resolve issues in existing SAP BTP, ABAP, and SAP FIORI/UI5 applications, ensuring seamless integration with other systems.
- Follow SAP best practices and ensure compliance with Novartis coding standards.
- Stay updated with the latest SAP BTP and ABAP trends and updates, as well as SAP FIORI/UI5.
- Proactively engage and build effective working relationships within IT, the business, and peers.

Qualifications:

- Minimum 1-5 years of experience in developing applications using SAP BTP and ABAP.
- Familiarity with OData, RESTful APIs is a plus.
- Experience with SAP FIORI/UI5, including building and deploying FIORI apps, is advantageous.
- Interest in AI and its applications in ERP systems is highly desirable.
- Strong problem-solving skills and willingness to learn.
- Good communication and teamwork abilities.

Desired:

- Bachelor ' s degree in Computer Science, Information Technology, or a related field.

About the Role: As a key player in the Development Factory, this role will be accountable for designing, developing, and implementing solutions while working on SAP BTP and ABAP in the area of ERP. The specialist will work with design experts, different technology architects, vendors, project management teams, third-party users, and business users in the ERP domain. The role will also involve leveraging SAP BTP services to enhance application functionality and performance. Experience with SAP FIORI/UI5, including building and deploying FIORI apps, is advantageous to further enhance the user interface and experience. The specialist will be part of our DDIT APD ERP team.
