Web Project Manager

Job ID REQ-10055396

11月 13, 2025

Mexico

摘要

Within Marketing Operations, the Web Centralized Design and Authoring team is responsible for centralizing and delivering web services to our brands. The Web Project Manager will support the execution of web projects within various CMS platforms (Drupal, Nutanix, Adobe Experience Manager). Will gather business needs from Web Delivery Manager and translate those requirements into the features available in the WCDA realm.
#LI-Hybrid

Location: Mexico City

Novartis is unable to offer relocation support for this role: please only apply if this location is

accessible for you

About the Role

Key responsibilities:

- Proficiency in managing CMS platforms
- Author, edit, and organize content within CMS platforms.
- Organize and coordinate the content author teams to incorporate forms, integrating with SFMC/Databases, SEO requirements, layout requirements, among other features required by marketing team
- Coordinate with cross functional team for site provision and domain definition
- Coordinate with customer experience, domain definition and records/info needed for internal registration
- Provide insight to content authors and designers to execute their tasks without causing any delay
- Review project brief and provide feedback to ensure alignment with business needs
- Work closely with the POD Lead to share backlog requests of new features, and communicate bugs to the Product Team promptly
- Keep constant communication with Designers and Content Authors about new features, and provide insights about technical limitations
- Assist and support Content Authors and Designers in scoping and managing timelines and processes
- Highlight potential risks proactively, indicating possible scenarios to mitigate the risk
- Comply with recognized standards, practices, and regulatory requirements.

Essential Requirements:

- Bachelor 's degree in web development, computer science, marketing, or related fields.
- Advanced degree in a relevant area is a plus.
- Proficient in Project Management

Experience

- Approximately 4-5 years 'experience in advertising agencies
- Strong experience in web development and content management
- Strong experience working with CMS platforms such as Drupal, Adobe Experience Manager, or similar platforms
- Knowledge of website hosting structure, SEO, SERM, SEO schema, website design, SFMC integration, embedded content.

Skills & Qualifications

- Knowledge in HTML, CSS, and JavaScript.
- Knowledge in content authoring, editing, and organizing skills within CMS platforms.
- Ability to manage concurrent projects and deliver work from concept through completion.
- Excellent problem-solving skills and active listening skills.
- Familiarity with and adaptability to new-generation technologies and trends (Gen Al and Agentic Al) is an added advantage
