7月 27, 2025

Mexico

摘要

-Apoya el desarrollo y la implementación de programas estratégicos y operativos de Asuntos Médicos Globales de TA, con un enfoque en la evidencia innovadora y / o la preparación para el lanzamiento y / o las soluciones posteriores a la comercialización, incluida la planificación de asuntos médicos y la ejecución de la estrategia de compromiso médico / científico que aborda y entrega las necesidades estratégicas de actividades médicas previas al lanzamiento y de lanzamiento para los pacientes, los sistemas clínicos, de acceso y valor a los sistemas de atención médica.

-Proporciona insumos médicos/científicos/de generación de evidencia durante el diseño y a lo largo de la ejecución de extremo a extremo de los programas.

-Proporciona insumos para el desarrollo y la ejecución del Plan de Evidencia Integrado (IEP) / programas funcionales específicos para maximizar la propuesta de valor para el portafolio de lanzamiento priorizado y el impacto de nuestros medicamentos.

About the Role

Major Accountabilities

- Supports the development and execution of a high-quality medical strategy for disease areas and brand vision throughout their lifecycle, at a global/regional or national level.
- Contributes to the design and implementation of innovative medical affairs plans that address medical needs, including the generation of RWE/evidence, HEOR, digital technology, innovative education, and scientific communication, etc., or co-creates the GMA plan that provides relevant insights if part of the global team, and shapes regional or country activities to address local needs in line with the global strategy.
- Collaborates with senior leaders from different functions and other relevant external partners to support medical product plans, clinical development, scientific communications, and medical expert engagement plans.
- Ensures the design and execution of all medical activities in accordance with P3 compliance guidelines.
- Maintains and drives medical and scientific excellence standards in the world/region/country through recruitment, training development, and technical development of associates.

Key Performance Indicators

- Supports the development and implementation of strategic and operational Global Medical Affairs TA programs, with a focus on innovative evidence and/or launch readiness and/or post-marketing solutions, including medical affairs planning and execution of the medical/scientific engagement strategy.
- Provides medical/scientific/evidence generation inputs during the design and throughout the end-to-end execution of programs.
- Provides inputs for the development and execution of the Integrated Evidence Plan (IEP)/specific functional programs to maximize the value proposition for the prioritized launch portfolio and the impact of our medicines.

Work Experience

- Bachelor's degree in health science, Medicine or related areas.
- Experience in the industry in related roles as MSL for a minimum of 3-5 years, having worked before with allergologists.
- Knowledge of allergies, (Asthma, food allergies, urticaria).
- Advanced English
