The Novartis R&D IP Legal team is seeking a Patent Attorney II, Biologics to independently perform core patent and more complex patent, exclusivity, and related activities. This individual will advise and strategically partner within the business, including with leaders within the business, with respect to patent and related activities. To utilize high level expertise on specific topics for assigned portfolios and tasks, and within the IP area. To contribute to the development of operational and strategic objectives.

About the Role

What you will be doing:

- Undertakes and leads core and some complex patent activities in role; e.g. patent drafting and prosecution, patentability and freedom to operate analysis, IP due diligences, litigation, and contract IP terms.
- Manages a patent portfolio relating to a key product, multiple products, or other strategic assets.
- Applies expertise in national patent law and practice and superior working knowledge of foreign patent law and practice.
- Understands other forms of protection relating to exclusivity, and applies as required.
- Understands the business of the Novartis group as part of the healthcare industry, and the role of IP in the business at that level.
- Builds relationships and counsels senior colleagues and key Business Partners on complex and high value/impact IP-related matters and represents IP on respective boards/meetings as needed.
- Manages patent and other exclusivity litigation with some independence according to the agreed process.
- Contributes to management of budget through careful planning, management of external counsels, and applying cost containment strategies.
- Contributes to implementation and applies IP policies and guidelines.
- Reporting of technical complaints / adverse events / special case scenarios related to Novartis products within 24 hours of receipt -Distribution of marketing samples (where applicable)

Role Requirements:

- J.D. degree with admission to at least one state bar & registered to practice before US Patent Office; and
- Bachelor ' s degree in biology or Biochemistry; MS or PhD, in biology, e.g., molecular biology, or similar
- PLUS
- 1-2+ years exposure to the drug discovery and development processes utilized at pharmaceutical and/or biotechnology companies
- 5+ years of experience as a patent practitioner in a law firm or in the pharmaceutical or biotechnology industry is required;
- Strong scientific background in the biological sciences, preferably including direct lab experience;
- Expertise in local (US) and PCT law, filing process and prosecution practice; detailed understanding of counterpart European patent law and other major global patent systems;
- Strong customer-service experience & focus to build and sustain effective partnerships with key stakeholders and project teams;
- Experience integrating global outlook and management of product lifecycle into decision-making process;
- Effective analytical, presentation, and communication skills and demonstrated ability to work both independently and collaboratively in a team;
- Well-developed research and critical thinking skills, and sound decision-making abilities, with attention to detail to produce consistently accurate work

Novartis Compensation Summary:

The salary for this position is expected to range between \$185,500.00 and \$344,500.00 per year.

The final salary offered is determined based on factors like, but not limited to, relevant skills and experience, and upon joining Novartis will be reviewed periodically. Novartis may change the published salary range based on company and market factors.

Your compensation will include a performance-based cash incentive and, depending on the level of the role, eligibility to be considered for annual equity awards.

US-based eligible employees will receive a comprehensive benefits package that includes health, life and disability benefits, a 401(k) with company contribution and match, and a variety of other benefits. In addition, employees are eligible for a generous time off package including vacation, personal days, holidays and other leaves.
