

LDC Solution Design Manager Indirect Tax Asia Pacific

Job ID
REQ-10057391

8月 25, 2025

Malaysia

摘要

Accountable for the design in the Indirect Tax workpackage, build and deployment of LDC in-scope processes and data based on the user-requirements defined in conjunction with the domain pillars and the E2E data team. Working with architecture to identify new technologies and the new possibilities arising out of it.

About the Role

Key Responsibilities

- Design tax determination rules and functionalities of an indirect tax determination engine
- Design the functionalities of new Indirect Tax application and functionalities to support VAT / GST / WHT compliance, reconciliation and reporting.

- Assist in the development, testing and deployment of the applications
- Liaise with global process owners, project peers, country accounting and indirect tax experts, to ensure the designed solution fits with global and local business and legal requirements
- Collaborate with IT experts, to ensure that design decisions are aligned with Novartis architectural standards, performance, quality and security principles
- Liaise with project management and project leads to ensure that project work is delivered to agreed time, cost and quality constraints following the release calendars
- Create and maintain project documentation, training and educational material of the processes

Essential requirements:

- University level degree
- Previous experience in indirect tax department, tax and financial accounting in multinational companies
- Business acumen: very good understanding of various worldwide data models
- Digital savvy: very good grasp of the impacts and opportunities of data and technology will create to Novartis
- Leadership skills: ability to inspire change, involve country-experts and effectively communicate to relevant stakeholders
- Work closely with IT Experts, tax process owners and country experts, to ensure integrated and standardized solutions across the organization.
