Job ID  
REQ-10057494

7月 21, 2025

Czech Republic

### 摘要

Accountable for the design in the area of Indirect Tax - electronic invoicing, build and deployment of LDC in-scope processes and data based on the user-requirements defined in conjunction with the domain pillars and the E2E data team. Working with architecture to identify new technologies and the new possibilities arising out of it.

### About the Role

About the job

An outstanding opportunity is available for finance professionals to lead e-invoicing and real-time tax

reporting workstream, across multiple countries. We seek candidates with a strong passion for innovation and technology, who are committed to transforming internal processes to meet evolving e-invoicing and real-time tax reporting requirements. The ideal candidate will be self-motivated and prepared to contribute to a highly complex digital transformation initiative affecting more than 65 countries and regions at Novartis, a leading global pharmaceutical company.

## Education and experience

- University level degree
- Previous experience in indirect tax department, tax and financial accounting in multinational companies
- Previous experience with electronic invoicing projects
- Additional Project Management training, a certification/designation desirable
- Lean / Six Sigma Certified advantageous
- SAP knowledge preferred
- Excellent verbal and written communication in English

## Job dimensions

- Electronic invoicing
- Business acumen: very good understanding of various worldwide data models
- Curious and forward looking
- Digital savvy: very good grasp of the impacts and opportunities of data and technology will create to Novartis

- Leadership skills: ability to inspire change, involve country-experts and effectively communicate to relevant stakeholders
- Work closely with IT Experts, tax process owners and country experts, to ensure integrated and standardized solutions across the organization.

## Major Accountabilities

- Design the functionalities of new e-invoicing and tax real-time reporting applications and functionalities
- Stimulate and support cross-functional discussions
- Assist in the development, testing and deployment of the applications
- Liase with global process owners, project peers, country accounting and e-invoicing experts, tax experts, to ensure the designed solution fits with global and local business and legal requirements
- Collaborate with IT experts, to ensure that design decisions are aligned with Novartis architectural standards, performance, quality and security principles
- Liase with project management and project leads to ensure that project work is delivered to agreed time, cost and quality constraints following the release calendars
- Create and maintain project documentation, training and educational material of the processes
