Relocation Support: Novartis is unable to offer relocation support: please only apply if accessible.

Imagine shaping the future of global finance at Novartis, where your technical expertise meets purpose-driven innovation. As Associate Director Product Management Finance Planning & Analytics (SAC), you ' ll lead the design and delivery of cutting-edge digital finance solutions that simplify planning across 75+ countries. Collaborating with passionate teams across Finance and Technology, you ' ll drive impactful transformation through SAP Analytics Cloud, turning complex data into actionable insights. If you're ready to influence strategy, champion innovation, and make a real difference in people ' s lives—this is your opportunity

About the Role

Key Responsibilities

Technical Product Ownership & Strategy

- Owns and drives the product vision, roadmap, and backlog for Finance Planning & Analytics, ensuring alignment with enterprise financial strategies.
- Defines success metrics, prioritizes business needs, and continuously optimizes product performance.
- Leads requirement gathering, story mapping, and cross-functional execution across Finance, Engineering, and Business stakeholders.
- Responsible for Technical solutions design, development and delivery.

End-to-End Solution Delivery

- Oversees the full lifecycle of SAC,BPC solution delivery: from design and development to deployment, scaling, and maintenance.
- Translates complex business requirements into scalable, compliant, and high-performing SAP-based solutions.
- Manages distributed project teams and ensures timely delivery and smooth rollouts.

Stakeholder Collaboration & Consulting

- Acts as the primary connection between Finance capability owners and Digital teams.
- Provides IT consulting and change management support to drive adoption of global digital finance solutions.
- Builds strong partnerships across product, commercial, and technology functions to ensure shared ownership and delivery excellence.

Analytics, Insights & Innovation

- Leads development of advanced planning capabilities and data models within SAC.
- Establishes automated, scalable solutions for financial modeling and data analytics.
- Translates complex technical outputs into actionable insights for business leaders.

Strategic Influence & Governance

- Shapes long-term product strategies that impact core finance systems and processes globally.
- Ensures compliance with architectural standards, regulations, and enterprise IT governance.
- Identifies and qualifies new digital opportunities, driving them through early-stage ideation and approval.

Cross-Functional Leadership & Delivery Excellence

- Coordinates iterative releases, mitigates risks, and resolves blockers across technical and business domains.
- Influences and aligns product strategy across partner functions while managing competing priorities.
- Drives continuous improvement initiatives and contributes to overall team and product maturity

Minimum Requirements:

- University-level education in computer science, information security, or equivalent experience
- + 10 years in IT, product management, or solution delivery roles
- At least 3 years of hands-on experience with SAP Analytics Cloud Planning and Analytics
- Proven expertise in SAC features including story building, data modeling, and forecasting
- Strong knowledge of SAP BW/4HANA, BPC, and data integration methods
- Ability to translate business needs into scalable technical product designs
- Skilled in leading cross-functional teams across engineering and finance domains
- Familiarity with IT compliance, data security, and enterprise system governance.

Desirable Requirements

- Experience working with Finance functions such as FP&A, controlling, or cost forecasting
- Familiarity with SAP Datasphere, Group Reporting, or non-SAP analytics platforms like Power BI or Snowflake.
