#LI-Hybrid

Location: Barcelona, Spain

Relocation Support: This role is based in Barcelona, Spain. Novartis is unable to offer relocation support: please only apply if accessible.

Imagine shaping the future of global finance at Novartis, where your technical expertise meets purpose-driven innovation. As Associate Director - Technical Product Manager for SAC Planning & Analytics, you ' ll lead the design and delivery of cutting-edge digital finance solutions that simplify planning across 75+ countries. Collaborating with passionate teams across Finance and Technology, you ' ll drive impactful transformation through SAP Analytics Cloud, turning complex data into actionable insights. If you're ready to influence strategy, champion innovation, and make a real difference in people ' s lives—this is your opportunity

About the Role

Key Responsibilities

- Define and drive the product vision and roadmap for SAC Planning & Analytics in alignment with finance strategy
- Translate business needs into scalable, compliant, and high-performing SAP-based solutions
- Lead cross-functional teams through requirement gathering, story mapping, and execution
- Oversee end-to-end delivery of SAC solutions, from design to deployment and maintenance
- Collaborate with Finance and Digital teams to ensure shared ownership and delivery excellence
- Develop advanced planning capabilities and data models within SAC for financial insights
- Ensure compliance with IT governance, architecture standards, and regulatory requirements
- Identify and qualify new digital opportunities, driving early-stage ideation and approval
- Manage iterative releases, mitigate risks, and resolve blockers across business and tech domains
- Champion continuous improvement and contribute to product and team maturity

Minimum Requirements:

- University-level education in computer science, information security, or equivalent experience
- Minimum 7 years in IT, product management, or solution delivery roles
- At least 3 years of hands-on experience with SAP Analytics Cloud Planning and Analytics
- Proven expertise in SAC features including story building, data modeling, and forecasting
- Strong knowledge of SAP BW/4HANA, BPC, and data integration methods
- Ability to translate business needs into scalable technical product designs
- Skilled in leading cross-functional teams across engineering and finance domains
- Familiarity with IT compliance, data security, and enterprise system governance.

Desirable Requirements

- Experience working with Finance functions such as FP&A, controlling, or cost forecasting
- Familiarity with SAP Datasphere, Group Reporting, or non-SAP analytics platforms like Power BI or Snowflake.
