摘要

Location: Hyderabad

The Snr. Spec. Test Expert in Data & Analytics Team is responsible for ensuring the quality & reliability of multiple products developed. This role plays a crucial part in the overall product delivery lifecycle by validating new products, existing product enhancements, defect fixes, and recommend improvements on the overall user experience.

About the Role

Major accountabilities:

- Collaborate with AWS Analytics Platform team-members to define overall test strategies for

multiple products

- Drive the standard execution of multiple test phase (system, integration, functional, regression, acceptance, performance etc.)
- Ensure all test related deliverables are created to quality in line with defined GxP and Non-GxP processes
- Collaborate regularly with eCompliance, Quality Managers, Security Architects / Managers to perform review of different artifacts for final sign-off
- Enable automation with approved tools or in-house developed code-based frameworks as required
- Expand the testing scope by including boundary cases, negative cases, edge/corner cases etc.
- Integrate testing with DevOps pipeline with tools like (Bitbucket, Jenkins, Artifactory etc.) for one click test & deployment to higher environments
- Work closely with resources from partner organization in terms of mentoring, delegation of work & timely delivery

Minimum Requirements:

- Bachelor ' s/Master's degree in Computer Science, or any other technology related field
- Engineering or computer science degree with 8+ years ' experience in quality engineering / testing space
- Strong expertise on manual testing and automation testing (preferably - Selenium, Postman, Jmeter tools)
- Excellent knowledge on programming languages - JAVA. Good to have knowledge on Python
- Experience with using a broad range of AWS technologies - EC2, EBS, EFS, ECS, EKS, S3, Cloudtrail, IAM etc.
- Hands-On with DevOps tools like - Bitbucket, GIT, Jenkins, Artifactory etc.
- JIRA & Confluence knowledge is a must
- Excellent verbal and written communication skills in a global environment a must.
- Has an open and learning mindset. Adapts to new learning approaches and methods.
- Work as part of Agile development team, fully participating in Scrum ceremonies and development processes.
