摘要

We are seeking an techno functional and skilled SAP BPC /SAC expert to join our team and lead the design, implementation, and optimization of SAP solutions. You will play a crucial role in bridging the gap between business stakeholders and technical teams, ensuring that our SAP solutions effectively meet business requirements, enhance financial processes, and drive data-driven decision-making.

About the Role

Key Responsibilities:

- Primary POC: Act as the primary point of contact for SAP BPC/SAC solutions, owning the product backlog, prioritizing features, and driving the development and delivery of enhancements and updates
- Requirements Gathering: Collaborate closely with business users, finance teams, and

stakeholders to elicit, document, and prioritize SAP requirements that align with financial planning, budgeting, forecasting, and reporting needs.

- **Solution Design:** Translate business requirements into comprehensive SAP BPC/SAC solutions, encompassing data models, reporting templates, financial planning models and consolidation processes.
- **Technical Collaboration:** Work closely with IT teams, SAP experts, and developers to ensure the successful implementation and integration of SAP solutions, providing clear guidance and fostering effective communication.
- **Change Management:** Facilitate the adoption of new SAP BPC/SAC solutions by coordinating training, communication, and support activities for end-users, addressing challenges and concerns proactively.
- **Continuous Improvement:** Monitor the performance of SAP BPC/SAC solutions, gather user feedback, and drive continuous improvements to enhance system usability, efficiency, and accuracy.
- **Access Management, Data Integrity and Governance:** Ensure proper access management, data quality and integrity within SAP BPC/SAC, establishing and enforcing data governance standards and best practices.
- **Risk Management:** Identify and mitigate risks associated with SAP BPC/SAC processes, controls, and data integrity, collaborating with relevant stakeholders to ensure compliance.
- **Documentation:** Maintain comprehensive documentation of SAP BPC/SAC configurations, processes, and enhancements, serving as a resource for both technical and nontechnical stakeholders.
- **Vendor Management:** Collaborate with external SAP consultants, vendors, and partners to leverage expertise and optimize SAP BPC/SAC solutions.

Essential requirements:

- Bachelor's degree in Finance, Business, Information Systems, or a related field; Master's degree is a plus.
- 5+ years of experience as a Product Owner, Business Analyst, or in a similar role with a strong focus on SAP BPC/SAC solutions.
- In-depth knowledge of SAP BPC & SAC functionalities, including financial planning, budgeting, forecasting, and consolidation processes.
- Strong understanding of financial concepts, processes, and reporting requirements
- Familiarity with SAP technologies, data integration, and reporting tools.
- Excellent communication skills to effectively bridge the gap between business and technical teams.
- Analytical mindset with the ability to troubleshoot issues, analyze data, and provide insights.
- Project management skills to lead SAP BPC implementation projects and coordinate teams.
- Change management expertise to drive user adoption and manage resistance to system changes.
- Problem-solving orientation with the ability to address challenges and find innovative solutions. Flexibility to adapt to evolving business needs and technology advancements
