

Medical Advisor - New Products & Development

Job ID
REQ-10058285

7月 24, 2025

Hong Kong Special Administrative Region, China

摘要

The MA - NP&Dev, is responsible for supporting the design, implementation and execution of Medical Affairs plans for new products within Greater Bay Area (GBA); building strategies including real-world data generation on innovative medicines listed within GBA following GBA policies and communication guidance allowed

About the Role

Key responsibilities:

Medical Affairs strategy in line with global strategy

- Leverage insights from GBA unmet need and treatment landscape to implement planned Medical Affairs activities on assigned products in GBA
- Identify and build strategies for new HK/Macau approved products (not approved in China)

to be listed in GBA hospitals

- Build strategies for new product development aligning with local strategies within GBA and HK

Medical Affairs activities

- Execute integrated evidence generation plans to address unmet needs in GBA and HK for new product development
- Execution/oversight on clinical trial or clinical research related activities, including real-world data generation
- Coordinate scientific meeting and educational programs; develop strategic engagement plans
- Report AE/PC within 24 hours of receipt as appropriate

Internal collaboration and other responsibilities

- Acts as internal subject expert to provide medical insights to cross-functional teams
- Working with GBA cross-functional teams to build GBA strategy
- Coordinate review and approval of locally developed materials and global materials tailored to local needs adhering to ERC, P3 and GBA policies and communication guidance
- Responsible for risk identification and assessment, mitigation planning; implementation and monitoring of appropriate internal controls

People Management

- Coach and manage 2 GBA MSLs based in China
- Ensure timely execution of planned Medical Affairs activities by MSLs in an efficient and compliant way
- Ensure medical enquiries are responded to in a high quality and timely manner compliantly by MSLs
- Oversight and manage GBA MSLs' responsibilities in a timely manner (iSEC, customer relationship management tool etc.)

Essential requirements :

- MD, PharmD, pharmacist, PhD, Master above degree in medical or other life sciences
- Fluent in spoken and written Chinese and English
- Strategic & collaborative mindset across boundaries
- Medical Advisor and new launch experience preferred
- Experience in clinical research and real-world data generation is preferred, but not mandatory
- Experience in project and operation management and execution
