摘要

The Solution Design Manager is the business representative in the Supply Hub and Toll reconciliation Enterprise Workstream to design, build and deploy the global supply hub and Toll reconciliation processes with the respective solution(s) for Novartis to ensure E2E execution. This role requires knowledge in the areas of IC Order management and Logistics, IC inventory reconciliation execution between the Swiss legal entity and NTO manufacturing sites as well as Local inventory reconciliation between the NTO sites and local CMOs. We are looking for someone who ideally has experience in SAP implementation projects in the areas mentioned above.

About the Role

Major Accountabilities

Act as the Business Solution Manager responsible for the Supply Hub and inventory reconciliation

related processes in close collaboration with the GPO (Global Process Owners), Global IC OM Department, Business Champions, Functional IT Experts and the LDC Adopt counterpart.

Responsible for elaborating deliverables as per the project plan during conceptual design, build and adopt phase. Below is a list of such deliverables (not exhaustive):

- Ensure a proper implementation of the intermediate Core solution designed in previous releases by adopting the global template to fit for the upcoming LDC releases
- Establish or update business standard operating procedures
- Review and adopt, if necessary, the training material and working instructions
- Execute business screening of IT solutions and testing of solution(s)
- Support and contribute to data migration activities
- Align and agree on integration of relevant processes and their respective system solution(s)

Essential Requirements:

- University degree in the fields of supply chain management, business management, Finance, Information science or comparable education.
- Several years of experience in a role related to Intercompany Order Management, logistics or financial reconciliation
- Fluent in English (written and spoken).
- Ability to work independently and in a structured and careful manner.
- Positive and pro-active attitude.
- Flexibility to work in a fast paced, quickly changing work environment.
- High degree of teamwork and quality orientation
- Ability to operate in a global matrix environment

Desirable Requirements:

- Experience in Solution Design related to set-up of Novartis
- SAP Super User
