7月 28, 2025

Spain

摘要

Location: Barcelona, Spain; #LI-Hybrid (12 days/month in office)

The role is based in Barcelona. Novartis is unable to offer relocation support for this role: please only apply if this location is accessible for you.

About the Role:

We are looking for a Salesforce Developer our Salesforce Centre of Excellence in our digital transformation journey, with presence in key strategic locations globally and working across a broad range of solutions. In the Centre of Excellence, we deliver leading and innovative solutions through an agile and product led approach set on both internal business efficiency and external facing applications for medical professionals and patients. With endless future opportunities in Digital Health, we are well positioned to build products which reimagines medicine and transform the lives of millions of patients worldwide.

As a Salesforce Developer you will be part of one of our scrum teams, working in multicultural global projects, following Agile methodology and participating in the required daily stand ups, sprint

plannings, grooming and retrospective sessions and PI preparation events. You will contribute and support aspects of estimating, planning, developing, and delivering solutions in alignment with design and architectural standards and business requirements.

About the Role

Key Responsibilities:

- Develop, build, configure, customize, and unit test custom and out of the box solutions using Salesforce platform based on the functional and technical specifications.
- Collaborate with the team for code review and unit testing to produce outstanding code.
- Work to integrate services horizontally across organizational units and manage interfaces between Service Delivery projects.
- Take part in conference calls, stand-up meetings, time tracking and the completion of tickets that have been assigned to you in a Jira instance.
- Promote good communication, problem-solving and self-driven ways of working.
- Support for knowledge transfer, process documentation and application bug fixes.

Essential Requirements:

- 3+ years' experience in the Salesforce Platform and key platform technologies Apex, Lightning Web Components (LWC), REST, APIs, and SOQL
- Salesforce Certified Administrator
- Salesforce Certified Platform Developer I
- Hands-on experience in administration setup, managing users, security controls, and data as well as creating roles, profiles.
- Experience in designing custom objects, custom fields, picklists, page layouts, workflow, approval processes, validation rules, custom tabs, reports and dashboards.
- Understanding of layout concepts and site functionality - common interactions, user interfaces, navigation, etc.
- Experience with Product Development Lifecycle and DevOps tools like GIT, Jenkins, JIRA, etc.
- You have a strong understanding of other related technologies (SQL, SOAP, HTML5, JavaScript, etc.)
- Knowledge on system / API integration and basic authentication methods (Keywords: SOAP, REST, Salesforce API, OAUTH, SSO)
- Ability to work independently, proactively identify challenges, problem-solving skills, and be accountable.
- Excellent communication, fluent English both written and spoken

Commitment to Diversity & Inclusion:

We are committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.

Why Novartis?
