

Technical Project Manager, Data Digital & IT

Job ID
REQ-10060198

9月 02, 2025

Spain

摘要

Step into a role where your leadership and strategic thinking will shape the future of digital transformation. As a Technical Project Manager in Data Digital & IT, you ' ll be at the heart of delivering innovative solutions that drive operational excellence and empower teams across Novartis. You ' ll lead cross-functional projects with precision, ensuring smooth transitions and impactful outcomes. This is your opportunity to make a meaningful difference while growing in a collaborative, inclusive environment that values your voice and vision. If you're ready to lead with purpose and passion, we ' d love to hear from you.

About the Role

You are applying to be part of the Novartis Talent Pool. We are not currently recruiting for this role, but we are building a pipeline for future opportunities. If you would like to be considered for a similar position in the future, then please submit your CV.

Key Responsibilities

- Lead medium-complexity IT projects from design to delivery, ensuring alignment with business goals.
- Direct external project teams, maintaining control over progress, quality, and budget.
- Facilitate all project meetings and manage records of actions, decisions, risks, and escalations.
- Oversee smooth transitions to operations and coordinate all release-related activities.
- Monitor execution, manage scope, and ensure effective governance and risk control.
- Ensure compliance with security policies and project management standards.
- Collaborate across teams and suppliers to drive successful project outcomes.

Essential Requirements

- Proven experience leading diverse, cross-functional project teams.
- Strong background in managing project budgets and financial planning.
- Demonstrated ability to navigate complex stakeholder environments.
- Expertise in project risk management and mitigation strategies.
- Skilled in change management and decision-making under pressure.
- Fluent in English, with excellent communication and collaboration skills.

Desirable Requirements

- Experience working in a global pharmaceutical or healthcare environment.
- Familiarity with agile methodologies and digital transformation initiatives.

Commitment to Diversity and Inclusion / EEO: Novartis is committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.
