

Digital Endpoint Expert

Job ID
REQ-10060219

8月 26, 2025

Ireland

摘要

Step into a role where innovation meets impact. As a Digital Endpoint Expert, you ' ll be a key member of the Digital Endpoint Capability Centre, driving the coordination, implementation, and deployment of digital endpoints and digital health technologies across clinical trials. You ' ll bridge digital health expertise and clinical trial excellence, working closely with trial teams and cross-functional stakeholders to ensure seamless delivery. Your leadership will shape the integration of novel measures across the development organization, while your expertise will help define implementation strategies tailored to each indication and trial design. If you're passionate about digital health and ready to lead transformation at scale, this is your opportunity to make a meaningful difference.

About the Role

Key Responsibilities

- Provide subject matter expertise to support digital endpoint deployment across clinical,

scientific, and technology domains

- Provide digital health technology SME knowledge to support the qualification and onboarding of third-party digital health technology providers for clinical trials
- Manage vendor selection, oversight, and execution across all phases of trial start up, conduct and close out
- Drive operational integration of digital endpoints within Novartis processes and global clinical operations
- Monitor patient recruitment and device compliance, escalating risks and resolving issues as needed
- Support data management and data operations in database setup, data standards, transfer, cleaning, and analysis
- Lead process development and training initiatives to expand digital endpoint capabilities across teams

Essential Requirements

- Advanced degree or PhD in Engineering, Life Sciences or Pharmacy with strong digital health and/or clinical development knowledge
- Minimum 4 years ' experience in clinical research, ideally with technologies, biomedical engineering, or bioinformatics
- Familiarity in developing and validating digital endpoints
- Familiarity of regulatory requirements across EMA, and USA regions
- Proven leadership, negotiation, and project management skills with ability to manage competing priorities
- Excellent interpersonal and communication skills across scientific and business contexts
- Strategic thinker with proactive problem-solving skills in trial design and delivery
- Knowledge of ICH/GCP and clinical trial technology landscape

Commitment to Diversity and Inclusion / EEO:

Novartis is committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.
