摘要

Location: Basel, Switzerland

Role Purpose:

We are looking for a highly motivated Expert in Science & Technology to support Analytical Research & Development (ARD). ARD sits within the Global Technical R&D department of Development and plays an essential role in the characterization and analysis of Small Molecule Drug Substances and Drug Products from the time they leave the discovery laboratory until they are transferred to Commercial Production. The role will be part of the Small Molecules GMP Analytics Team with focus on small molecules and Radioligand Therapy.

About the Role

Major accountabilities:

- Independently plan, organize, execute, and document scientific experiments (e.g., stability/ release testing, validations, APS, etc.) according to the agreed timelines and appropriate quality standards.
- Accountable for documentation and submission of raw data in appropriate data system (e.g., GLIMS eLN).
- Responsible for good documentation practices (GDP) and good laboratory practices (GLP) during execution of laboratory activities.
- Support in evaluation and interpretation of results including investigations on SST failures, OOX/Deviations/Change controls as needed.
- Responsible for assigned laboratory related area/activities (e.g., chemical/reagents/consumables /samples/column/ glassware management etc.).
- Review and verify raw data generated by others; approval of tests / experiments performed by others -Write protocols, scientific reports or lab procedures based on templates or SOPs under minimal supervision
- Train and coach associate scientists, technicians, temporary employees and employees under training / education
- Proactively communicate key issues and any other critical topics in a timely manner to the manager and/or to any other relevant project team member(s).
- Responsible to meet KQI (Key quality indicators) and KPI (Key performance indicators) for all assigned activities.
- Actively contribute to team and organization goals
- Work according to appropriate SOPs, GMP, HSE, ISRM and Novartis Guidelines

Minimum Requirements:

- Bachelors/Masters in Life Science (e.g., analytical / organic chemistry /pharmacy / pharmaceutical development) or equivalent
- 3+ years of related experience in a GMP environment
- Understanding of general regulatory and quality expectations.
- Good scientific background, communication skills including presentation and scientific/technical writing.
- Fluent English (Oral and written)

Commitment to Diversity and Inclusion: Novartis is committed to building an outstanding, inclusive work environment and diverse teams' representative of the patients and communities we serve.

Accessibility and accommodation

Novartis is committed to working with and providing reasonable accommodation to all individuals.
