摘要

We are looking for a Senior Business Analyst to join our Technology & Scientific Computing(TSC) team in Development.

Within Development, our core statistical computing environment is used for submissions as well as exploratory data science related activities. Hosting a wide range of scientific software, the goal is to provide a robust and state-of-the-art platform for our 1500+ users. We are looking for someone to ensure customer satisfaction and continued improvement of our knowledge hubs.

About the Role

Key Responsibilities

- Engage with various user communities (primarily Biostatisticians and senior Data scientists) to identify high priority subject areas

- Work with end users to articulate the business value of requested demands
- Support resolution of user demands
- Contribute to gap analyses between the core end user requirements and the existing technology landscape. Help drive change management and uptake of emerging tools and ways of working
- Write technical content for our knowledge hubs, share and promote them to a wide range of users
- Have in-depth understanding of the validation procedures followed in a regulated environment
- Support definition, implementation and tracking of effectiveness of best practices.
- Ability to drive process specific improvements as part of platform initiatives. Contribute to User acceptance testing in formal validation

Minimum requirements

- Bachelor ' s degree in a quantitative fieldPreferred: Master ' s degree or PhD in a quantitative field
- Candidates with statistical, pharmaceutical, clinical background are preferred
- Familiarity with writing content using (R)markdown and/or quarto.
- Deep understanding of general GxP and computer systems validation principles
- Broad familiarity with a wide variety of technical subjects (R, python, Kubernetes, git, etc.) and the ability to provide useful examples and insights to teach others
- Ability to understand and communicate with many different stakeholders, e.g., those in business, IT and quality.
- A solution-oriented mindset, Good R programming skills
- Excellent written and verbal communication skills (English language).
