Italy

摘要

Job Description Summary

As a Clinical Research Medical Advisor you will play a key role in providing clinical, strategic and tactical leadership to support trials and clinical development plans with a medical / clinical accountability and direct impact on the efficiency of clinical trial conduct.

About the Role

Your key responsibilities

Your responsibilities include, but are not limited to:

- Ability to manage a study from the medical/clinical perspective, and a demonstrated capability to solve problems and mediate complex clinical/medical issues.
- Agility to move fast across different therapeutic areas and indications.
- Ability to lead through effective and constructive communication, proactive cross-functional collaboration, strong energy and motivation.
- Provide clinical development and indication expertise and closely collaborates with the Clinical Operation Organization to ensure fast clinical trial start up, recruitment according to planned timelines, early identification of potential delays and robust recruitment mitigation plan.
- Review and resolution of local medical issues / questions - if necessary, support the discussion of issues to global teams.

What you ' ll bring to the role:

- Medical Degree (preferred)
- Previous experience in neurosciences will be preferred
- Previous experience in clinical development
- Proficient in Italian and English.
