摘要

We're looking for a forward-thinking leader who can connect data with strategy to unlock meaningful business value. In this role, you'll collaborate with global management, country teams, and customer engagement leaders to identify opportunities where insights can drive transformation.

You'll be responsible for designing and executing strategies to collect, analyze, and translate data into actionable recommendations, empowering informed decision-making across all levels of the organization.

About the Role

#LI-Hybrid

Key Responsibilities:

- Collaborate with global management, country and customer engagement teams, data scientists and country leadership to identify high-value opportunities where data insights within C2I space can drive measurable business outcomes.
- Build and execute a comprehensive strategy for data collection, governance, and utilization.
- Develop dashboards, reports, and analytical tools to visualize performance and enable data-driven decision-making.
- Track and monitor KPIs for current and future value cases, ensuring transparency and accountability.
- Provide clear, actionable recommendations to management based on data insights.
- Translate complex data into business-relevant narratives to influence strategic decisions.
- Drive continuous improvement by embedding insights and analytics into operational and strategic planning.

Essential Requirements:

- Minimum 6 years of experience in analytics, insights, or strategy roles, ideally within multinational or complex organizational environments.
- Deep understanding of ERP systems, with hands-on experience in SAP S/4HANA and Vistex highly valued.
- Advanced proficiency in data visualization and dashboarding tools such as Power BI, Tableau, or Qlik.
- Proven ability to translate complex data into actionable business insights, driving measurable impact across functions.

- Strong stakeholder engagement and communication skills, with the ability to influence at senior levels.
- A strategic thinker who is also comfortable executing and learning hands-on, bridging business and IT perspectives.
- Fluency in English is required; additional languages are a plus.
