

## Technical Project Manager, Clinical Enablement Team

Job ID  
REQ-10061679

9月 12, 2025

India

### 摘要

Step into a role where your leadership drives innovation in clinical research technology. As Technical Project Manager on the Clinical Enablement Team, you ' ll lead transformative projects within the QUANTA Statistical Compute Environment, shaping how data powers decision-making in advanced quantitative sciences. You ' ll collaborate with global stakeholders, manage cross-functional teams, and deliver IT solutions that directly impact the future of healthcare. If you thrive in dynamic environments and want to make a meaningful difference, this is your opportunity to lead with purpose.

### About the Role

#### Key Responsibilities

- Lead end-to-end delivery of IT projects from initiation through to operational handover
- Collaborate with global business leaders to define requirements and deliver impactful IT

solutions

- Manage cross-functional teams to ensure timely, budget-conscious project execution
- Apply Agile and other methodologies to optimize project outcomes and team performance
- Oversee project governance, risk management, and compliance with GxP and data privacy standards
- Present project updates and risks to senior stakeholders and steering committees
- Drive change management and adoption of new tools and practices across the business

## Essential Requirements

- University degree in Informatics, Computer Sciences, Life Sciences or equivalent experience
- Proven expertise in Agile project delivery within global environments
- Experience in Pharma or IT industry with GxP-compliant solution delivery
- Strong command of project methodologies including ICE, PRINCE2, Agile, and Waterfall
- Solid understanding of data technologies and their business applications
- Ability to engage diverse stakeholders across business, IT, and quality functions

## Desirable Requirements

- Familiarity with drug research, development, or commercialization portfolios
- Program or Project Management certification (e.g., PMP, PRINCE2, Agile)
