摘要

Join our team as an Analytical Science and Technology (AS&T) Postdoc and make an impact in pharmaceutical innovation! In this dynamic role, you'll use your analytical skills to ensure seamless lab operations, deliver high-quality results, and uphold GxP and HSE standards. From analyzing compounds to interpreting complex data with advanced instrumentation, you'll play a key part in driving successful outcomes for every project. If you're ready to combine technical expertise with a passion for excellence, this role is for you!

About the Role

Duration: 1 year

Location: Stein, Aargau

Your responsibilities will include:

- Support laboratory team with expert analytics to ensure efficient and compliant lab operations
- Review and approve analytical data in alignment with GxP and HSE standards
- Conduct qualitative and quantitative analysis of drug substances and products
- Organize and interpret complex data using diverse instrumental technologies
- Lead method transfer and optimization initiatives across projects
- Manage equipment qualification, calibration, and breakdown resolution
- Prepare and execute equipment qualification plans for new technologies
- Report technical complaints and adverse events within 24 hours of receipt

What you'll bring to the role:

Work Experience:

- Completed doctoral degree in chemistry, biology, or pharmacy (completed within the past 2 years)
- Proven experience in analytical techniques and laboratory operations
- Strong understanding of GxP and HSE compliance standards
- Proficiency in instrumental analysis methods (e.g., HPLC, GC, spectroscopy)

Skills:

- Excellent communication and documentation skills
- Experience with equipment qualification and calibration processes

Languages :

- Fluency in English; German is a plus

Please submit a cover letter that includes your motivation for the position and from when you will be available. Thank you.

Accessibility and accommodation:

Novartis is committed to working with and providing reasonable accommodation to all individuals. If, because of a medical condition or disability, you need a reasonable accommodation for any part of the recruitment process, or in order to receive more detailed information about the essential functions of a position, please send an e-mail to diversity.inclusionch@novartis.com, and let us know the nature of your request and your contact information. Please include the job requisition number in your message.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives.
