摘要

- Lead scientific engagement with their Medical Experts. Implement clinical and educational strategies and respond to unsolicited medical enquiries.
- Internal title: Field Medical Lead - Renal

About the Role

Major accountabilities:

- Engage with Medical Experts (MEs) to educate on medical/scientific information
- Ensure appropriate identification/mapping of MEs/ Key Accounts including identification of opportunities to involve MEs when a specific medical need is identified to provide support
- Develop and execute ME engagement plans to effectively prioritize and strategically engage MEs

aligned with country strategy

- Respond to unsolicited requests for information from MEs
- Support Novartis clinical research programs, optimize trial execution and provide scientific educational support to potential and actual study sites in collaboration with clinical operations
- Facilitate Investigator Initiated Trial (IIT) process upon investigator request
- Serve as a medical resource to field matrix colleagues
- Strategic Insight Gathering: Engage with nephrology experts to collect actionable insights that inform and refine launch strategies for key renal assets
- Stakeholder Collaboration: Build and maintain strong, trust-based relationships with internal and external stakeholders in the nephrology field through scientific expertise and effective communication.
- Medical Affairs Execution: Lead and support medical activities aligned with the launch strategy, including speaking engagements, advisory boards, and data generation initiatives.

Essential Requirements:

- Minimum of 2 years of experience in Medical Affairs
- Exposure to pre-launch/launch is preferable
- Experience in the nephrology field is a strong advantage
- Business-level English proficiency, with strong written and verbal communication skills
- Solid understanding of clinical trial design and outcomes, with the ability to interpret and clearly communicate complex scientific data
- Proactive in sharing scientific insights and engaging in meaningful discussions with both internal teams and external stakeholders
- Skilled in building trusted relationships with medical experts to gather strategic insights and support evidence-based decision-making
- Proven track record of cross-functional collaboration, with experience leading or contributing to successful product launches or strategic initiatives
