

## Senior Scientist I - Neuroscience

Job ID  
REQ-10062066

9月 12, 2025

USA

### 摘要

We are seeking an enthusiastic, highly motivated, results-oriented Senior Scientist I to join our Genetics Medicine Unit. The ideal candidate will be innovative, organized, and adaptable to a fast-paced environment. This individual will execute and support in vivo and ex vivo studies to support oligonucleotide delivery programs. Don't miss this fantastic opportunity!

### About the Role

#LI-Onsite  
Site: San Diego, CA

### Key Responsibilities:

- Plan, execute, and troubleshoot in vivo studies for a variety of Neuroscience programs

- Plan and execute complex tissue extraction protocols and analyses, including RNA and protein assays (Western blots, qPCR)
- Intracerebroventricular (ICV) and intrathecal (IT) dosing, bleeding and CNS tissue dissection and collection
- Handle many projects simultaneously and prioritize experiments while producing high quality, reliable and reproducible results
- Data analysis, organization and presentation
- Maintain up to date, organized and accurate study records including the use of an electronic lab notebook

#### Minimum Requirements:

- BA/BS in science-related field
- 4+ research experience preferably in the field of neuroscience
- Experience developing and executing experimental assays such as qPCR, western blotting, or nuclear fractionation.
- Experience developing and executing in vivo experiments in rodent models
- Expertise in small animal surgical techniques such as stereotaxic surgeries, or catheterization
- Ability to work well in a collaborative, fast-paced team environment
- Excellent problem-solving and interpersonal skills
- Knowledge of computer software and Microsoft applications (Word, Excel, PowerPoint, GraphPad Prism)

#### Preferred Qualifications:

- Masters' in science-related field

The salary for this position is expected to range between \$85,000 and \$158,000 per year.

The final salary offered is determined based on factors like, but not limited to, relevant skills and experience, and upon joining Novartis will be reviewed periodically. Novartis may change the published salary range based on company and market factors.

Your compensation will include a performance-based cash incentive and, depending on the level of the role, eligibility to be considered for annual equity awards.

US-based eligible employees will receive a comprehensive benefits package that includes health, life and disability benefits, a 401(k) with company contribution and match, and a variety of other benefits.

In addition, employees are eligible for a generous time off package including vacation, personal days, holidays and other leaves.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives.
