### 摘要

The Associate Director, Data Integrations will be responsible for responsible for implementing the integration of data across various systems and platforms, ensuring seamless data flow and accuracy. This role requires a deep understanding of data integration techniques, strong leadership skills, and the ability to work collaboratively with cross-functional teams.

### About the Role

#### Key Responsibilities

- Lead and manage the data integration team, providing guidance and support to ensure successful project delivery.
- Design, develop, and implement data integration solutions to meet business requirements.
- Collaborate with stakeholders to understand data needs and develop integration plan and roadmap.

- Ensure data quality and integrity by implementing best practices and data governance policies.
- Troubleshoot and resolve data integration issues in a timely manner.
- Stay up to date with the latest trends and technologies in data integration and recommend improvements.

#### Essential Requirements:

- Novartis seeks an individual with extensive experience in the pharmaceutical or healthcare industry, with a deep understanding of data management, data & analytics tools and platforms and product operations. The candidate should foster a collaborative and innovative work environment.
- Bachelor ' s degree in data science, Computer Science, Information Technology, or a related field. A master's degree is preferred.
- Strong knowledge of data integration tools and technologies (e.g., ETL, API, middleware).
- Proven track record of leading cross-functional teams and driving organizational change.
- Excellent verbal and written communication skills, with the ability to convey complex concepts to non-technical stakeholders.
- Strong leadership and team management skills.
- Excellent analytical and problem-solving abilities.
- Proficiency in data management tools and software.
- Attention to detail and commitment to data accuracy.

#### Desired Requirement:

- 10-12 years of experience in the pharmaceutical or healthcare industry, with a strong focus on provider data management in a healthcare setting.
- 5+ years of people management experience. Proven track record of enabling data-driven decision-making at a senior leadership level, including addressing complex business challenges.
- Strong analytical background, strategic thinking and problem-solving skills, with the ability to translate complex data into actionable insights and aligning them with business priorities to drive impactful results
