

Clinical Vendor Performance Analysis Manager

Job ID
REQ-10062908

10月 09, 2025

Ireland

摘要

LOCATION: Dublin, Rep of Ireland
ROLE TYPE: Hybrid Working #LI-Hybrid

The Vendor Performance Analysis Manager supports the Development organization by analyzing business processes to optimize costs, improve supplier performance, and identify opportunities for value creation.

Using data-driven insights and financial models, the manager aids in vendor selection, contract reviews, and identifying incremental cost-saving opportunities.

Collaborating with the Vendor Alliance Lead and cross-functional teams, the role ensures effective sourcing strategies and supports supplier alignment with organizational goals.

In this position, the manager focuses on tactical execution, operational support, and analytics-driven recommendations, while maintaining quality standards and fostering positive relationships with vendors.

About the Role

Major accountabilities:

- Support data analysis efforts to identify cost-saving opportunities and ensure efficient sourcing decisions.
- Conduct basic financial modeling and “should cost” analysis to facilitate vendor reviews and contract discussions.
- Assist in gathering supplier data, market trends, and performance metrics for analysis and reporting purposes.
- Collaborate with Procurement and other teams to streamline sourcing processes and improve operational efficiency.
- Monitor and track sourcing KPIs and performance metrics to identify trends and areas requiring improvement.
- Contribute to the development of dashboards, reports, and presentations to communicate insights and recommendations to stakeholders.
- Provide operational support for sourcing-related projects and initiatives to drive incremental improvements.

Key performance indicators:

- Timely, efficient and quality execution of trials & trial related activities within assigned clinical program(s) within budget, and in compliance with quality standards.
- Adherence to Novartis policy and guidelines and external regulations.

Minimum Requirements:

Bachelor ' s degree or equivalent degree

Work Experience:

- 3+ years ' working experience
- Knowledge of clinical operation processes and vendor management experience a plus
- Knowledge sourcing processes and cost structure within clinical research categories a plus
- Experience with data analysis and visualization tools
- Experience with financial modeling concepts.
- Demonstrated problem solving and solution generations skills
- Results driven demonstrated ability to support the execution of projects according to required deliverables and within timelines
- Strong teamwork and collaboration skills in a cross-functional environment.
