摘要

#LI-Hybrid

Location: Hyderabad, India

Are you ready to reimagine how evidence shapes the future of medicine? As Associate Director Evidence Partnerships & Solutions, you ' ll be at the forefront of pioneering strategic collaborations and innovative methodologies that drive impactful evidence generation across therapeutic areas. This role offers a unique opportunity to influence global healthcare outcomes by integrating cutting-edge technologies and real-world data into the development of life-changing treatments. Join us in shaping the future of evidence excellence at Novartis.

About the Role

Key Responsibilities

- Drive identification and scaling of strategic partnerships and solutions aligned with business priorities
- Pilot innovative methodologies and digital tools to enhance evidence generation impact and scalability
- Recommend fit-for-purpose data and integrated evidence solutions to support product access and adoption
- Translate evidence generation needs into scalable technology requirements in collaboration with cross-functional teams
- Connect internal and external stakeholders to ensure consistent implementation of advanced solutions
- Promote adoption of novel scientific methods including pragmatic studies and hybrid trial models
- Develop learning content and toolkits to support new evidence capabilities across global teams
- Build and evaluate partnerships with medical societies, academic institutes, and data owners
- Ensure compliance with regulatory and ethical standards in partnership and solution development
- Maintain data quality and integrity across research initiatives in alignment with global best practices

Essential Requirements

- Advanced degree or equivalent education/degree in life science/healthcare required. MBA or equivalent preferred
- Minimum 10 years experience and 5 years ' in pharmaceutical academic research, or healthcare with focus on evidence generation
- Proven expertise in interventional and non-interventional trial design and RWE methodologies
- Strong understanding of global regulatory and access environments
- Excellent communication skills with ability to simplify complex scientific concepts
- Experience working across geographies and navigating global healthcare systems

Desirable Requirements

- Prior experience in strategic partnerships and alliances, including managing external scientific collaborations
- Strong leadership background in international, multidisciplinary drug development or country-level product teams
