Austria

摘要

#LI-Hybrid
Location: Schafftenau, Austria

Shape the future of medicines as an AS&T Expert! You ' ll be responsible for managing analytical aspects with focus on drug substance and drug product stewardship with focus on technical and analytical method transfer within responsible projects to ensure that the operational business is in compliance with cGMP (Current Good Manufacturing Practices). In addition, you will ensure analytical Life Cycle Management for commercial products and drive quality across projects—making a real impact on patient safety and product excellence.

About the Role

Key Responsibilities

- Lead and oversee all analytical activities within assigned projects
- Manage lifecycle of analytical methods, ensuring compliance and performance improvements
- Execute timely method transfers and validations for new or transfer projects
- Set up and monitor stability studies to maintain product quality
- Act as primary contact for internal teams, external partners, and contract labs
- Provide scientific support for Quality Control, Production, and Regulatory submissions
- Serve as subject-matter expert during audits and health authority inspections

Essential Requirements

- PhD in a scientific or technical field (e.g., pharmaceutical sciences, chemistry, pharmacy) or a Master ' s degree with substantial relevant experience
- Proven experience in the pharmaceutical industry or analytical laboratory within a GMP environment
- Strong knowledge of analytical methods and lifecycle management
- Ability to collaborate effectively across functions and with external partners
- Excellent problem-solving skills with a focus on quality and compliance
- Proficiency in German and English, both written and spoken

You ' ll receive:

You can find everything you need to know about our benefits and rewards in the Novartis Life Handbook. <https://www.novartis.com/careers/benefits-rewards>

In addition to a market-competitive base salary, we offer an attractive incentive program, a modern company pension scheme, childcare facilities, learning and development opportunities as well as worldwide career possibilities within the Novartis group. In accordance with Austrian law, we are obliged to disclose the minimum salary as stated in the collective bargaining agreement. For this position the minimum salary is € 64.023,54/year (on a full-time basis). The actual salary will be significantly higher, as we strive to maintain a competitive position in the market and consider your previous experience, qualifications and individual competencies.

Commitment to Diversity and Inclusion:

Novartis is committed to building an outstanding, inclusive work environment and diverse teams' representative of the patients and communities we serve.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients ' lives. Ready to create a brighter

future together? <https://www.novartis.com/about/strategy/people-and-culture>

Adjustments for Applicants with Disabilities

If because of a medical condition, physical disability or a neurodiverse condition you require an adjustment during the recruitment process, please reach out to disabilities.austria@novartis.com and let us know the nature of your request as well as your contact information. The support which we can provide will include advice on suitable positions as well as guidance at all stages of the application process. Austrian law provides candidates the opportunity to involve the local disability representative, Behindertenvertrauensperson (BVP), in the application process. If you would like to request this, please let us know in advance as a note on your CV.

Novartis is committed to building an outstanding, inclusive work environment and diverse teams' representative of the patients and communities we serve.
