

Director GMA Oncology Cell & Gene Therapies

Job ID
REQ-10063697

10月 29, 2025

United Kingdom

摘要

LOCATION: London, UK or Barcelona, Spain

ROLE TYPE: Hybrid Working, #LI-Hybrid

As Director, Global Medical Affairs (GMA) - Oncology Cell & Gene Therapies, you will lead the medical strategy for priority programs in hematology, driving integrated evidence plans, external partnerships, and scientific communications. You ' ll act as a strategic partner across Development, International Medical Affairs, and US Medical Affairs, representing the medical voice throughout the asset lifecycle

About the Role

Key Responsibilities

- Lead development and execution of medical affairs strategy for Cell & Gene assets.

- Co-develop integrated evidence plans, field medical strategies, and scientific education programs.
- Drives global innovative evidence solutions, including interventional and non-interventional as well as real-world-evidence studies
- Represent GMA in internal and external forums and collaborate across functions.
- Provide strategic input into development, lifecycle management, and market access strategies.
- Ensure compliance with medical quality standards and company policies.
- Champion patient-centric approaches and support patient access programs globally.

Requirements

Must Have

- MD (preferred), or PhD/PharmD in Health Sciences.
- 5+ years of experience in Medical Affairs and/or Clinical Development within the pharmaceutical industry.
- Proven ability to lead in complex, matrixed environments.
- Fluent in English; additional languages are a plus.
- Strong strategic mindset, stakeholder influence, and delivery focus.
- Deep understanding of healthcare systems and external stakeholder dynamics.
- Expertise in Good Clinical Practice (GCP), clinical methodology, and regulatory standards.

Preferred

- Therapeutic Area expertise in Cell & Gene Therapies in Oncology or Hematology.
- Experience across product lifecycle, launch, and post launch phases.
- Clinical trial research experience in pharma or academic settings.
- Track record of developing and scaling best-in-class medical processes.
