

Executive Director Evidence Generation (TA)

Job ID
REQ-10063721

10月 01, 2025

United Kingdom

摘要

LOCATION: London, UK or Dublin, Rep of Ireland

ROLE TYPE: Hybrid Working, LI-Hybrid

Imagine leading a global movement that transforms how evidence shapes healthcare decisions this is your opportunity to inspire change at scale.

As Evidence Generation Executive Director, you ' ll be at the forefront of shaping how Novartis delivers impactful, high-quality evidence across the product lifecycle.

You ' ll lead and empower a diverse, high-performing team of scientific experts, fostering a culture of excellence, innovation, and collaboration.

Your strategic vision will guide global studies from Phase IIIb/IV trials to Real World Evidence programs ensuring they meet the needs of regulators, payers, clinicians, and patients.

By championing integrated evidence and nurturing cross-functional partnerships, you ' ll help redefine how data drives access, adoption, and better outcomes for patients worldwide.

About the Role

Key Responsibilities

- Lead a global team to deliver integrated, high-quality evidence aligned with therapeutic and business objectives
- Oversee design and execution of Phase IIIb/IV trials, non-interventional studies, and Real World Evidence programs
- Align evidence generation strategies with medical and access priorities across global functions and key countries
- Drive innovation using novel methodologies, digital technologies, and real-world data sources
- Influence therapeutic area strategy as part of the TA Medical Leadership Team
- Champion operational excellence and talent development within the Evidence Generation Leadership Team
- Build strategic partnerships internally and externally to enhance collaboration and scientific impact

What You ' ll Bring to the Role

- Advanced degree (MD, PhD, PharmD, or equivalent) in life sciences, public health, or a related field
- Extensive of experience in evidence generation within pharma, academia, or healthcare settings
- Proven expertise in designing and executing interventional, non-interventional, and Real World Evidence studies
- Strong leadership and collaboration skills in global, cross-functional environments
- Ability to translate scientific insights into strategic decisions that drive product and stakeholder impact
- Excellent communication skills with the ability to engage diverse internal and external audiences
