摘要

Provides program management and operational expertise to Medical Strategy Teams (MSTs), partnering with disease areas in the end-to-end planning process and continuous execution.

About the Role

Responsibilities include:

- Program Management - Implements best-in-class program management tools and processes in the day-to-day practice across Medical Affairs MSTs. Provides continuous feedback from the execution/implementation to align best practices with business needs across Medical Teams.
- Strategy development - Facilitates/coordinates the process to define medical strategies and priorities at disease area/product level by bringing insights from the execution and delivery of tactics.

- Tactical planning - Partners with Medical Teams to lead the process of developing tactical plans aligned to strategies and priorities.
- Excellence in execution - Coordinates / tracks project milestones and overall programs ' progress. Provides project management support for selected tactics based on complexity and relevance for the overall program. Continuously evaluates to find improvement opportunities and improve strategic and tactical plans.
- Budget management - Drives the process for the creation of the annual budget at disease area/product level, and owns monthly budget updates and forecasts, ensuring minimal deviations vs target. Proactive evaluation and identification of risks/opportunities. Facilitates process to re-prioritize and define mitigative actions.
- Stakeholder management & communications - Organizes and facilitates/drives meetings for strategic and tactical forums/cross-function teams. Engages with multiple stakeholders within Medical Affairs and across the organization.
- Knowledge management - Collecting content for annual strategic plans. Owns distribution of content and management of tools to ensure access to information and continuous communication for disease area teams.

Position Requirements

- Bachelor ' s degree in scientific field required; Advanced degree preferred.
- PMP (Project Management Professional) Certification desirable.
- 5-10 years in pharmaceutical industry (or similar area of work) with a proven record for managing and/or coordinating projects from start to completion.
- Proven record of accomplishments that demonstrate strong strategic project management, analytical and multitasking skills.
- Demonstrated track record of success and leadership skills working on multidisciplinary drug development teams in different phases of development in a complex matrix environment.
- Experience managing and forecasting budgets.
- Advanced user skills in project management tools, Excel, Word, PowerPoint.
- Strong written, oral & presentation skills, with an ability to make professional and credible first impressions with internal and external customers.
- High degree of organizational, analytical, and team management and leadership skills.
- Ability to work on complex, multi-faceted projects.

•Excellent interpersonal communication and cross-functional collaboration skills.
