

Medical Safety Lead - CRM

Job ID
REQ-10065235

10月 21, 2025

Spain

摘要

Join Novartis and make a profound impact on patient safety!

As a Medical Safety Lead, you'll spearhead safety evaluations, collaborate with dynamic global teams, and craft safety strategies that not only protect patients but also drive groundbreaking medical innovation.

Be a part of something extraordinary!

About the Role

**** 2 positions available within our Cardio Renal Metabolism Therapeutic Area****

Location(s): Barcelona, Spain or London, England

Major accountabilities:

- Monitor clinical safety data, literature, and case reports to identify potential safety signals
- Conduct medical assessments for individual cases, including follow-ups and quality defect evaluations
- Perform signal detection and evaluation using aggregate and single-case data
- Contribute to regulatory responses and prepare safety data for health authority reviews
- Support safety input for core data sheets and related regulatory documentation
- Provide medical input for aggregate safety reports and risk management plans
- Collaborate with cross-functional teams on clinical safety deliverables and study documentation
- Offer expert evaluation on adverse event reports and guide pharmacovigilance operations

Role Requirements:

- Master of Science / PharmD / PhD in a relevant field
- Fluent in spoken and written English; additional language skills are a plus
- Minimum 4 years of experience in drug development, including 2 years in patient safety
- Strong knowledge of clinical trial methodology, regulatory requirements, and scientific analysis
- Proven ability to interpret and present safety data clearly and effectively
- Experience contributing to clinical safety assessments and regulatory safety reports

Desirable Skills:

- Medical degree (MBBS or MD) with specialization preferred
- Experience managing clinical safety issues

Ready to make a difference? Apply now and help us reimagine medicine for millions of patients worldwide.
