

Global Program Safety Lead - Immunology

Job ID
REQ-10065580

10月 30, 2025

Switzerland

摘要

Are you ready to make a significant impact in medical safety?

Novartis is seeking passionate individuals to join our innovative team. You will work with cutting-edge technology, collaborate with experts, and drive excellence in patient safety.

If you're eager to advance your career and be part of a forward-thinking company, we want you on our team!

About the Role

#LI HYBRID

Location: Basel, Switzerland

Working model: Hybrid

Key Responsibilities:

- **Safety Input and Team Participation:** Provide expert safety input to the clinical development program for assigned projects/products and actively participate in the Global Program Team (GPT), Global Clinical Team (GCT), and Clinical Trial Team (CTT). Lead the Safety Management Team (SMT). Responsible for managing safety issues from the formation of the GPT through Life Cycle Management.
- **Safety Strategy Preparation:** Own the projects/products safety strategy and lead the production of medical safety deliverables.
- **Core Global Labelling:** Responsible for initial development and ongoing maintenance of safety information in Core Data Sheet, addressing safety issues in all project/product indications.
- **Signal Detection and Safety Management:** Oversee overall signal detection, monitoring, evaluation, interpretation, and appropriate management of safety information, based on data from all relevant sources.
- **Regulatory and Professional Inquiries:** Lead the preparation of the safety strategy for health authority responses and collaborate with other project team members. Respond to inquiries from regulatory authorities or healthcare professionals regarding safety issues.
- **Departmental and Functional Goals:** Contribute to and often lead the development of departmental and functional/business unit goals and objectives. Proactively engages in the development of competencies across the Medical Safety Function

Role Requirements:

- Medical Degree or equivalent is preferred; PhD, PharmD or equivalent graduate level health care professional degree required
- 3 years clinical experience postdoctoral
- Minimum 5 years' experience in drug development in a major pharmaceutical company (of which 2 years in a global position), including 2 years in safety at an operational or medical position.
- Experience in clinical trial methodology, regulatory requirements, scientific methodology, statistics and writing of publications
- Expertise in preparing or contributing to preparation of clinical safety assessments and regulatory reports/submissions involving safety information
- Experience with (safety or others) issue management
- Experience in leading cross-functional, multicultural teams

Languages:

- Fluent English (both spoken and written) is mandatory.

Additional desirable skills:

- Additional languages are an advantage.
- Immunology experience

Accessibility and Inclusion

Novartis is committed to working with and providing reasonable accommodation to all individuals. If, because of a medical condition or disability, you need a reasonable accommodation for any part of the recruitment process, or in order to receive more detailed information about the essential functions of a position, please send an e-mail to inclusion.switzerland@novartis.com and let us know the nature of your request and your contact information. Please include the job requisition number in your message.

Ready to make a difference? Apply now and help us reimagine medicine for millions of patients worldwide.
