At Novartis, you can do and be more than you may have thought possible as part of an inclusive culture created to help you thrive personally and grow professionally.

We are hiring a Senior Specialist in our Information Security Team as part of the Data, Digital & IT function at Novartis.
As part of this role, you will oversee security operations, service line, technology governance and interface externally and internally in accordance with service operations and management processes at Novartis.

About the Role

Location – Hyderabad #LI Hybrid

Key Responsibilities:

- 8 to 10 years of experience in Privileged Account Management using CyberArk.
- Implementation/Operations experience on CyberArk v12, V13.
- Responsible for privileged User account administration of various devices like Windows , UNIX DB Networks and Security etc.
- Excellent Knowledge in managing CyberArk workflow and policies.
- Basic knowledge of MSSQL, ORACLE, UNIX, Active Directory, Windows etc.
- Experience in integrating CyberArk with SIEM systems, ticketing systems (SNOW), enterprise monitoring etc.
- Good Experience in working with AAM components.
- Support deployment, configuration and day-to-day operations of Conjur environments.
- Assist in onboarding applications to Conjur including application identity creation and secrets mapping.
- Experience integrating Conjur with various DevOps tools and cloud-native environments.
- Build and maintain custom connection components using APIs and plug-ins.
- Collaborate with application and DevOps teams to understand Onboarding needs and build reusable integration pattern.

Essential Requirements:

- 5+ years in IAM/PAM, 2-4 years hands-on CyberArk Conjur.
- Strong experience in designing and deploying Conjur in enterprise environments.
- Strong experience in integrating secrets management with CI/CD.
- Experience in new Conjur integrations. Experience in Connector/Plug-in development
- Good understanding of LDAP concepts.
- Experience in using standard protocols like SSH, Telnet, RDP, etc. and related tools like Putty.
- Should have the ability to understand customer scenario and requirements (may include customized integration situations) and be capable of suggesting solutions.

Desirable Requirements:

- 5+ years of strong PAM support experience.
- Strong oral and written communications skills.
- CyberArk Certified Sentry, Or other PAM product knowledge.
- Good knowledge of infrastructure management.
