摘要

#LI-Onsite

Location: Târgu Mureș, Romania

This role is based in Târgu Mureș, Romania. Novartis is unable to offer relocation support for this role: please only apply if this location is accessible for you.

Help reimagine medicine and improve patients' lives by building the digital, data, and engineering foundations that power Novartis—from discovery and clinical operations to manufacturing and global supply. We are looking for Engineering Experts, as we actively map and assess the labour market, who can transform complex challenges into secure, scalable, and compliant solutions that help accelerate therapies to patients.

About the Role

Key responsibilities:

- Architect and deliver end-to-end platforms across research, clinical, manufacturing, and supply chain.
- Elevate reliability, performance, and data integrity; lead technical initiatives to de-risk projects and drive outcomes.
- Collaborate with stakeholders to translate needs into compliant, scalable solutions.
- Own assigned systems/applications: implement, operate, maintain, troubleshoot, and train for high availability.
- Design, implement, and maintain automation systems for projects and site operations.
- Plan and execute maintenance and calibration activities, including spare parts management.
- Organize and supervise production to meet plan in line with laws, internal regulations, and Good Practices; support project controlling and contract management.

Essential Requirements:

- University Degree in Engineering, Mechanical, Automation, Project Management or equivalent
- Languages: advanced English and Romanian
- Minimum 3 years of relevant experience in one or more of the following domains: project management, mechanical design, computerized systems, automation, electronics, or pharmaceutical manufacturing (preferably within GMP/GxP-regulated environments).

Commitment to Diversity and Inclusion / EEO paragraph:

Novartis is committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you.
