### 摘要

The Isotope Shift Supervisor is responsible for the daily operations of the production team, specifically the direction and management of manufacturing operations to deliver high quality isotope products in a safe, compliant, efficient and cost-effective manner. In addition, successful execution of this role ensures all manufacturing operations within scope occur in compliance with both HSE and GMP regulations.

### About the Role

Major accountabilities:

- Ensures the Shop Floor achieves targets for Quality, Safety, and Productivity (Production throughput times and batch record review).
- Lead and facilitate shop floor meetings, making schedule and personnel adjustments as necessary to properly staff the modules.

- Maintain an "audit ready" shop floor. Assist with internal pre-audit walkthroughs, CGMP housekeeping and general organization of manufacturing spaces.
- Maintain a daily physical presence with direct reports on and off the shop floor to supervise, coach, and support.
- Ensure Associates are demonstrating the proper aseptic techniques & behaviors.
- Possess basic technical knowledge and background on multi product processes.
- Proficient in the use of production related IT systems such as SAP, LIMS, and MES.
- Responsible for training of all direct reports, including the on-time completion of required training curriculum comprised of global and local SOPs.
- Adhere to all SOPs, cGMPS, and safety rules and regulations; ensure Associates are executing tasks per approved policies and applicable procedures.
- Coordinate, monitor, and improve, production process with a Quality and Continuous improvement mindset.
- Work with team to resolve and implement Corrective Actions and Preventative Actions (CAPAs).
- Support Associates throughout the year during one-on-one discussions and periodic check-ins to achieve annual objectives and development opportunities.
- Manage any disciplinary actions (including PiPs) with direct reports
- Participate in hiring strategy
- Compile area metrics, reports, and performance levels as required; draft and deliver reports to higher level management.

#### Essential Requirements:

- 3-5 year's cGMP manufacturing, cell culture/ cell therapy preferred
- Proven process understanding (Pharma, cGMP, Regulatory Aspects)
- Project management, Operational Excellence, Product/Process Development or Regulatory experience a plus.
- Contribute to site Manufacturing financial/business goals
- Maximize Quality and Process improvements
- Minimize rejected patient lots, media, and write-offs
- Bachelors degree required or 3-5 years of relevant experience in lieu of degree
- 1-2 years experience in a Lead or Supervisory role required, with focus on ensuring training and process compliance during daily operations
