#LI-Hybrid

Location: Basel, Switzerland.

Please note, this role can be based in Basel, Switzerland or in the US. If you are based in the US, please apply via REQ-10069549.

The Therapeutic Area Strategy Head will lead a therapeutic area focused team in the creation and ongoing update of a holistic and aligned Enterprise portfolio strategy for their Therapeutic Area (TA). The candidate will work closely with the senior leaders within the cardio-renal-metabolic (CRM) TA including Bio-medical Research (BR), Development and Commercial organizations in US and International and Search & Evaluation. The candidate will bring a passion for innovation, deep industry experience, scientific acumen and strong judgement to guide internal choices and drive sustainable growth in the short, mid and long-term in CRM. This individual will have both a broad and deep understanding of the CRM field to drive insightful and differentiating competitive advantages over our peers by bringing a third-party view around key strategic levers and external analyses, trends, and white space opportunities. Additionally, they will conduct targeted primary research.

About the Role

Key Responsibilities:

Provides external perspective and identifies opportunities:

- Builds and maintains in-depth knowledge of the TA (early pipeline to commercial); including disease models; responsible for ongoing assessment of peer companies with heavy exposure in the TA.
- Educates, updates and provides external views to all internal stakeholders. Provides insight within key portfolio governance processes (diligence and external landscape mapping with BD&L and M&A)
- Supports identification of growth accretive opportunities, indications, disease spaces and rejection of low value opportunities/projects
- Supports Group Investor Relations and the CEO Office with dissemination of key strategic insights
- Ongoing collection and synthesis of scientific and commercial insights for the TA

Owns TA portfolio strategy and prioritization:

- Leads the process of creating, maintaining and updating enterprise-wide TA portfolio strategy, including disease area and molecule selection to drive mid- and long-term growth in collaboration with RDC
- Identifies potential pipeline gaps, makes recommendations to address
- Works closely with key stakeholders in the Therapeutic Area Leadership (TAL) team to facilitate portfolio decision making, prioritization and trade-offs

Internal and External Commercial and Pipeline Modelling:

- Oversees assessments of programs fit to current portfolio strategy and facilitates central review for assets inside and outside current priorities (e.g., at Innovation Management Board (IMB))
- Provides consolidated commercial and development inputs to support business cases for internal and external assets and programs
- Provides outside-in independent view of internal assumptions around core pipeline
- Leads the development of assessment of external opportunities (e.g., forecast assumptions, business cases)

Others:

- Coaches, attracts, develops, and retains top talents; partners with P&O leadership to develop people strategy (e.g. organization development, performance, career development).
- Plans, allocates, and manages TA strategy financial budget by anticipating expenditures,

accurately forecasting resource needs/costs and properly accounting for expenses to meet requirements and achieve fiscal responsibility

Essential Requirements:

- Advanced degree or equivalent experience in life science/healthcare required, Cardiologist training highly desirable
- Demonstrated cross functional global leadership experience is essential.
- Minimum 10 years of pharmaceutical/biotech experience gained in banking, consulting, or biopharma, with exposure to drug development and ideally commercialization required. Proven ability to operate effectively in a highly matrixed, fast paced environment.
- Candidates with significant senior leadership experience – including Biotech CEOs and executives from investment banking or other Wall Street institutions are strongly preferred
- Ability to comfortably engage with the C-suite and mid-career associates to influence and challenge with excellent interpersonal and leadership skills
- Strong financial and business acumen with strong understanding of biopharma landscape; companies, assets and early technologies
- Strong strategic vision, superior leadership, excellent communication, consensus building, and well-developed influencing and negotiation skills
- Excellent conflict resolution skills to facilitate agreement and buy-in at the senior-most levels
- Experience leading and managing a team with a variety of insights from science to commercial and proven coaching and mentoring experience
