

RLT Medical Launch Liaison (RLT-MLL)

Job ID

REQ-10070931

2月 02, 2026

China

摘要

RLT MSL is responsible for supporting regional strategy, implementation and execution of Medical Affairs plans for radioligand therapy and radioligand imaging, providing scientific information, helping design and organize clinical studies, building educational dialogue with KOLs, local government, hospital administration & other relevant decision makers.

About the Role

Major accountabilities:

- Provide account education for on-site preparation and infusion processes for RLT/RLI products, and education for appropriate radiopharmaceutical licensing and licencing logistics.
- Identify, establish and maintain collaborative relationships with national opinion leaders, investigators, institutions and professional societies strategic to appropriate product development and use.

- Profile and mapping external accounts with focus on nuclear medicine and radiation oncology, urology and other clinic departments.
- Partner and support internal partners with GDD, TRD, NPP and training for educational materials and appropriate educational presentations to external partners.
- Lead RLT regional critical projects, launch preparation activities, liaising with society associations in line with the medical strategy, and remove clinical & non-clinical barriers.
- Support country medical affairs strategy in line with the global strategy, country insights and secure regional implementation of planned Medical Affairs activities within the designated therapy area(s).

Key performance indicators:

- Works within Ethics and Compliance policies
- Achievement of annual targets for medical activities.

Minimum Requirements:

Education and Qualifications:

- Masters' degree or above, medical background, clinical medicine is preferred

Work Experience:

- At least 5 years' MNC MSL experience, oncology area is preferred

Skills:

- Good communication skill
- Medical Education and Scientific Engagement
- Medical Science and oncology area knowledge
- Real world data generation

Languages :

- English
