- Provides comprehensive TA portfolio assessments in TM relevant projects including analysis of scale, speed, efficiency metrics to guide portfolio alignment with strategic objectives and delivers value efficiently
- Continuously engage in portfolio analysis and strategy topics to bring TMDP TA strategic prospective into various portfolio reviews and prioritization across TM and different management/decision boards
- For the responsible TA(s), lead goals tracking, portfolio analysis, bring insights, and support effective alignments among project management, DA Portfolio Strategy Development (PSD), TA Leadership (TAL) and Disease Area Decision Board (DADB)
- Supports TMDP TA Head(s) for coordinating essential internal processes and priority initiatives such as TA objective planning, internal TA meetings including cross-TA meetings, FTF meetings with partner groups, external reviews and collaborations, headcount planning, resource forecasting, and performance tracking of responsible TA(s)
- Support TA Heads in internal communication across strategic meetings, presentations and updates. Coordination of TA level team meetings, including agenda setting, material preparation, facilitation and action follow up.
- Lead operational excellence, process simplification, automation opportunities, AI enabled improvements, and coordination of cross-functional initiatives to address enterprise level challenges
- Coordinates a strategy for KOL interactions, including oversight of logistics
- Contributes to organizational development activities, including change management, capability initiatives and trainings

## Essential Requirements:

- Bachelor ' s degree required; advanced degree MBA, MSc, PhD strongly preferred in life sciences, or related field
- Minimum 6 years of experience in pharmaceutical, biotech, or related industry
- Prior experience with pharma portfolio analysis, portfolio management and strategy or portfolio operations
- Experience within early development, clinical development, business operations or R&D operations preferred
- Strong analytical and problem-solving capabilities
- Strong interpersonal skills and ability to collaborate across teams and levels
- Ability to synthesize complex information and communicate clearly
- Excellent organizational skills and ability to manage multiple priorities

## Desirable Requirements:

- Ability to leverage technologies and AI
- Proficiency with business tools (Excel, PowerPoint, Power BI, AI agents, etc.)
