Job Title: MSL

#LI-Hybrid

Location: Bogota, Colombia

Relocation Support: This role is based in Bogota, Colombia. Novartis is unable to offer relocation support: please only apply if accessible.

If you are passionate about advancing patient care through science, this is your opportunity to become a trusted medical partner in the field. As an MSL, you will bring evidence to life through meaningful scientific exchange, build strong relationships with healthcare professionals, and help shape medical strategy by translating real-world insights into action.

About the Role

Key Responsibilities

- Build trusted scientific relationships with healthcare professionals through credible, evidence-based medical exchange.
- Deliver accurate, balanced, and compliant scientific information to support informed clinical decision making.
- Identify and prioritize key medical stakeholders to enable tailored and high-impact engagement plans.
- Capture actionable field insights and translate them into recommendations that inform medical strategy.
- Support clinical research and local evidence generation by collaborating with internal and external partners.
- Identify evidence gaps and contribute to integrated evidence plans aligned with medical priorities.
- Enable internal teams with scientific expertise and foster cross-functional collaboration on medical activities.

Essential Requirements

- Advanced degree in life sciences, pharmacy, medicine, or a related scientific field.
- Strong understanding of medical affairs and scientific engagement within the healthcare environment.
- Experience building credible relationships with healthcare professionals through scientific discussion.
- Ability to interpret clinical data and communicate complex evidence with clarity and balance.
- Strong strategic thinking and insight generation skills to inform medical planning and decisions.
- Excellent collaboration and communication skills across cross-functional and external stakeholder groups.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives.
