

## Manager-RWE Acceleration

Job ID  
REQ-10075471

4月 24, 2026

India

### 摘要

The manager, RWE acceleration will lead the NOCC Hyderabad based RWE acceleration team within the RWE team of Novartis US medical affairs. This is a distinct operational capability focused on translating RWE data strategy decisions into executable workflows. The manager will serve as the India anchor for real-world data operationalization, working in close coordination with the US RWE acceleration team to implement frameworks, evaluate data assets, and integrate platforms that support evidence generation across the Novartis portfolio.

### About the Role

Location: Hyderabad #Hybrid

### Key Responsibilities

- Lead and develop a team of associates focused on vendor and data landscape evaluation

and platform integration

- Serve as the operational bridge between and NOCC Hyderabad data acceleration activities and the US data strategy team
- Oversee real-world data source assessments across claims, EHR, patient registries, and emerging AI based data platforms
- Implementation of real-world data platforms and tooling (data42) within NOCC Hyderabad teams workflows
- Collaborate with the scientific data analytics and research analytics managers in NOCC Hyderabad to align data infrastructure with study execution needs
- Contribute to the RWE function ' s internal capability scaling goals
- Represent the NOCC Hyderabad RWE acceleration workstream in cross-functional planning discussions with the US RWE associates
- Ensure data access governance, feasibility documentation, and vendor evaluation outputs meet Novartis quality standards

#### Essential Requirements:

- Comprehensive knowledge of real-world data sources.
- Understanding of regulatory and compliance requirements, specifically FDA guidance on observational studies.
- Exposure to oncology, cardiorenal metabolic, nephrology, immunology, and neuroscience therapeutic areas.
- Familiarity with AI-enabled real-world evidence and real-world data tools. Prior experience managing teams in matrixed team environment.
- Ability to develop and motivate specialized team in a newly created team with limited precedent; Creates clarity and direction in an ambiguous environment.
- Translate strategy into structured repeatable workflows; Builds processes from scratch and holds team to delivery standards.
- Comfortable across both data landscape and platform/tooling tracks; credible with both scientific and technical team members.
- Builds effective working relationships across geographies and functions; Navigates matrix reporting structures effectively.

#### Desirable Requirement :

- Bachelor ' s degree in a field such as epidemiology, biostatistics, statistics, bioinformatics, economics or equivalent and 10+ years conducting research in the pharma industry, contract research organization, or academic institute; or experience in a closely related discipline within the pharma industry (e.g., clinical research, statistics, epidemiology, pricing).
- Master ' s degree in a field such as epidemiology, biostatistics, statistics, bioinformatics, economics or similar. And 7+ years of experience conducting research in the pharma industry, contract research organization, or academic institute; or experience in a closely related discipline within the pharma industry.

#### Commitment to Diversity & Inclusion

We are committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.

## Accessibility and accommodation

Novartis is committed to working with and providing reasonable accommodation to individuals with disabilities. If, because of a medical condition or disability, you need a reasonable accommodation for any part of the recruitment process, or in order to perform the essential functions of a position, please send an e-mail to [diversityandincl.india@novartis.com](mailto:diversityandincl.india@novartis.com) and let us know the nature of your request and your contact information. Please include the job requisition number in your message.
