Spain

摘要

Job Title: Director, DDIT Development - Regulatory Affairs

#LI-Hybrid

Location: Barcelona, Spain

Relocation Support: This role is based in Barcelona, Spain. Novartis is unable to offer relocation support for this role: please only apply if this location is accessible for you.

Imagine shaping how regulatory teams worldwide harness technology to deliver medicines faster, smarter, and with confidence. As Director, DDIT Development - Regulatory Affairs, you will be the strategic technology partner to the Regulatory Affairs organization, turning complex business priorities into a high-impact digital and technology roadmap. You will lead a global portfolio that connects strategy, architecture, and execution—empowering leaders with clear insights, enabling innovation, and ensuring technology consistently advances regulatory excellence and patient outcomes.

About the Role

Key responsibilities:

- Act as the primary technology partner to Regulatory Affairs leaders, shaping strategy and digital priorities.
- Own the Regulatory Affairs technology portfolio, including governance, processes, metrics, and decision frameworks.
- Drive prioritization across initiatives using value, feasibility, impact, and capacity considerations.
- Oversee portfolio delivery, ensuring timelines, budgets, quality, and benefits realization.
- Lead development of business cases and project plans aligned to the Regulatory Affairs technology roadmap.
- Establish transparent reporting using key performance indicators and actionable portfolio insights.
- Anticipate risks, address delivery challenges, and drive timely resolution through stakeholder alignment.

Essential requirements:

- 10+ years of experience leading global technology or digital transformation in pharmaceutical or healthcare environments.
- Strong expertise in strategic technology partnering and project portfolio management.
- In-depth knowledge of software development life cycle and Agile Scrum delivery models.
- Proven experience applying artificial intelligence in life sciences, including large language models and retrieval-augmented generation.
- Demonstrated success leading complex programs with strong risk management and prioritization skills.
- Excellent leadership, analytical thinking, and executive-level communication across technical and non-technical audiences.

Novartis is committed to building an outstanding, inclusive workplace and diverse teams representative of the patients and communities we serve.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives. Ready to create a brighter future together? <https://www.novartis.com/about/strategy/people-and-culture>

Benefits and Rewards: Learn about all the ways we'll help you thrive personally and professionally. [Read our handbook \(PDF 30 MB\)](#)
