### 摘要

The Integrated Insights Manager plays a critical role in transforming data into actionable insights to support Commercial and Value & Access (V&A) decision-making. This position bridges strategy with execution by translating business priorities into analytics questions and delivering integrated insights through collaboration with cross-functional teams, data platforms, and external research partners.

### About the Role

Location: Toronto #LI-Hybrid

This role is based in Toronto, Canada. Novartis is unable to offer relocation support for this role: please only apply if this location is accessible for you.

This job posting is for an existing position

#### Key responsibilities:

- Act as the primary Integrated Insights partner for assigned Therapeutic Areas (TA) and/or Value & Access (V&A), consolidating analytics and insight needs
- Translate business strategies into clear insights, analytics questions, and research priorities.
- Lead market research planning and execution, including patient journey mapping, segmentation, and competitive intelligence.
- Integrate internal KPIs and external data sources to generate holistic insights on market, customer, and brand performance.
- Support forecasting by developing market assumptions and collaborating with cross-functional teams to ensure alignment.
- Generate insights to support Value & Access strategies, including payer research and access-related data analysis.
- Analyze large datasets to identify trends, opportunities, and risks across market, customer, and performance dimensions.
- Deliver impactful reports and presentations, translating complex data into clear, actionable recommendations.
- Partner with data and analytics teams to ensure data quality, integrity, and continuous improvement.

#### Essential Requirements:

- Bachelor ' s degree in Life Sciences, Business, Economics, Market Research, or related field.
- Minimum 8 years of experience in integrated insights, market research, business analytics, or commercial strategy in healthcare/pharma.
- Strong expertise across analytics, primary and secondary market research, competitive intelligence, and forecasting.
- Proven ability to translate complex data into actionable business insights.
- Experience working cross-functionally with commercial, finance, and access teams.
- Strong analytical, strategic thinking, and problem-solving capabilities.
- Proficiency in data tools and analytics platforms (e.g., Power BI, SQL, Alteryx).
- Excellent communication and storytelling skills to influence senior stakeholders.

#### Desirable Requirements:

- Advanced degree in Business, Life Sciences, Economics, or related field.
- Experience leveraging digital innovation and advanced analytics to drive business outcomes.
