

## Senior Manager, AI Enablement & Data Governance

Job ID  
REQ-10081031

6月 19, 2026

Spain

### 摘要

Job Title: Senior Manager, AI Enablement & Data Governance

#LI-Hybrid

Location: Barcelona, Spain

Relocation Support: This role is based in Barcelona, Spain. Novartis is unable to offer relocation support: please only apply if accessible.

Step into a pivotal role at the intersection of AI, data, and communications, where your work will shape how Novartis engages in an increasingly AI-driven world. As Senior Manager, AI Enablement & Data Governance, you will translate cutting-edge AI capabilities into practical solutions that enhance productivity, strengthen decision-making, and improve how our content and narratives are discovered and represented.

Working closely with cross-functional teams, you ' ll embed AI into everyday workflows, simplify processes, and ensure data is used responsibly and effectively—delivering measurable impact

across International Communications & Patient Advocacy.

## About the Role

### Key Responsibilities

- Translate AI strategy into practical, high-impact solutions across Communications and Patient Advocacy
- Shape and manage a prioritized portfolio of AI and data initiatives aligned to business impact
- Develop and implement business cases with clear, measurable value outcomes
- Drive measurable productivity gains through streamlined processes and reduced duplication
- Establish and maintain robust data governance standards across markets
- Enable consistent use of tools, data sources, and performance metrics for decision-making
- Monitor and improve how Novartis content appears in AI-driven and large language model environments
- Partner cross-functionally with technology, legal, and compliance teams to ensure responsible AI adoption

### Essential Requirements

- Bachelor ' s degree in Computer Science, Data Science, Engineering, or related technical field
- Significant experience applying artificial intelligence or data solutions to deliver measurable business outcomes
- Proven ability to translate artificial intelligence capabilities into practical use cases and scalable workflows
- Hands-on experience with large language models and generative artificial intelligence tools in a business context
- Strong understanding of data foundations, including data quality, taxonomy, and performance metrics
- Experience simplifying processes and improving efficiency through automation or data-driven solutions
- Proven track record driving adoption of new tools or ways of working across global, matrixed teams
- Experience collaborating cross-functionally with technology, legal, and compliance teams

### Commitment to Diversity and Inclusion

Novartis is committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives. Ready to create a brighter future together? <https://www.novartis.com/about/strategy/people-and-culture>

Benefits and Rewards: Learn about all the ways we'll help you thrive personally and professionally. [Read our handbook \(PDF 30 MB\)](#)
