摘要

#LI-Onsite
Internal Title: HSE Specialist
Location: Cambridge, USA

Support the implementation and continuous improvement of site HSE facility and contractor safety programs in alignment with local, regional, and global requirements. This position will assist in management of potential risks to human health and/or the environment resulting from activities involving facility maintenance operations.

Location: This role is based in Cambridge, USA. Novartis is unable to offer relocation support for this role: please only apply if this location is accessible for you.

About the Role

Key responsibilities:

- Supports development and implementation of facility safety and compliance programs (e.g., confined space, LOTO, hot work, fall protection, electrical safety), including commissioning safety with project teams and managing contractor resources.
- Drives safety-critical preventive maintenance, inspection programs, and participates in self-inspections with corrective action implementation.
- Supports contractor safety program administration, including contractor pre - qualification, training, and HSE assessments for capital projects (new facilities and decommissioning).
- Participates in hazard assessments across facility and scientific operations to ensure safe project and operational environments.
- Support compliance with site facility fire protection systems and code compliance programs.
- Participates in coordination with FM Global and supports tracking of recommendation & implementation action plans.
- Leverages risk assessment insights to recommend and implement control strategies and HSE program improvements.
- Acts as key HSE contact–driving incident investigations, ensuring compliance documentation, and partnering with stakeholders to implement programs.

Essential Requirements:

- 1-3 years of relevant HSE program experience, preferably with knowledge and experience with facilities-based safety programs and contractor safety programs .
- A working knowledge of pharma industry and the nuances of pharma HSE issues is a plus.
- Highly motivated self-starter with a proven ability to assume accountability & responsibility, take ownership for his/her work, and intelligently challenge the status quo.
- Competency in analytical and problem solving skills.
- Effective communication and interpersonal skills
- Ability to collaborate and build relationships with internal stakeholders as well as key external vendors.
- Demonstrates willingness and capacity to learn and apply HSE regulatory requirements in a dynamic environment.

Desirable Requirements:

- Bachelor's degree in a safety management, industrial hygiene, environmental science, occupational health and/or medicine, chemistry, or related field. Experience working in a research laboratory environment a plus.
- Fluent in English (oral and written).

Benefits & Rewards

The salary for this position is expected to range between $89,600 and $166,400 per year. The final salary offered is determined based on factors like, but not limited to, relevant skills and experience, and upon joining Novartis will be reviewed periodically. Novartis may change the published salary range based on company and market factors.

Your compensation will include a performance-based cash incentive and, depending on the level of the role, eligibility to be considered for annual equity awards.

US-based eligible employees will receive a comprehensive benefits package that includes health, life and disability benefits, a 401(k) with company contribution and match, and a variety of other benefits. In addition, employees are eligible for a generous time off package including vacation, personal days, holidays and other leaves.

Commitment to Diversity & Inclusion:

Novartis is committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.

Accessibility and Accommodation:
