The Tech Transfer Team Lead provides strategic and operational leadership for the Tech Transfer organization within MS&T.

The role ensures successful execution of technology transfers, commercialization activities, product introductions, supply network changes, and lifecycle transfers while developing a high-performing team of Tech Transfer Leads.

Serves as the primary escalation point for complex transfer projects and drives continuous improvement, capability building, stakeholder alignment, and organizational effectiveness across the transfer portfolio.

About the Role

Major accountabilities:

- Lead, coach, and develop a team of Tech Transfer Leads, building a culture of accountability, collaboration, innovation, and patient focus.
- Oversight and responsibility for technology transfer activities at site level (within, inbound and outbound), including any scale-up or other process adaptations (Novartis internal as well as customer business).
- Drives compounding and filling tech transfers as well as assembly and packaging transfers.
- Leads technical transfer project team at site and liaises efficiently with involved functions (e.g. Technical Development, Supply Chain, LCM, Production Unit, Quality Control, HSE, other sites - incl NOCCs.).
- Monitor project timelines, budgets, risks, and milestones.
- Establish local procedures & templates for technical transfers and contribute to process improvements and optimization for product transfers.
- Review transfer strategies and technical approaches, supporting resolution of critical scientific and operational challenges.
- Drive digitalization and AI adoption within Tech Transfer activities.
- Identify opportunities to simplify, automate, and optimize Tech Transfer processes through digital solutions.
- Drive practical implementation of Artificial Intelligence (AI) and Generative AI solutions within Tech Transfer and MS&T.

Essential Requirements:

- MSc or PhD in Biotechnology, Biochemistry, Chemical Engineering, Pharmacy, Biology, or related discipline.
- +8 years in Leadership positions within Biotechnology / Pharmaceutical Manufacturing / MS&T.
- Proven track record managing complex cross-functional projects.
- Technical Expertise in Biologics and/or sterile manufacturing processes, Technology transfer methodologies, GMP and regulatory requirements, Change management and lifecycle management; Process validation and commercialization.
- Fluent in English. Fluent in German would be an advantage.
